

This newsletter includes a curated collection of top stories from [www.CHP-Funder.com](http://www.CHP-Funder.com) and the global media, showcasing the latest in Combined Heat and Power (CHP) innovation and the investors that fund CHP. Please get in [touch](#) if you'd like to be a guest contributor, or if you have any feedback or tip.

**Inspiring stories from the CHP community about essential CHP professionals** on the frontline of energy-efficient, healthy businesses. It is safe to say that the world is changing, and though most people are not aware, CHP is keeping people safer during the coronavirus pandemic.

Fortunately, people and CHP are resilient, and we are finding ways to stay connected. Some of the most helpful tools have been virtual meetings, events, and webinars on the Internet. With social distancing, masks and quarantining being commonplace right now, technology has become even more integral to the lives of many. And while the Internet has certainly provided people with hours of Netflix entertainment and plenty of fun, it has also played an important role in supporting one another.

[WorldCogenerationDay.org](http://WorldCogenerationDay.org) is one of the ways technology can help companies virtually recognize your people, highlight your essential CHP infrastructure projects, and elevate CHP on social networks, communities and around the world.

## **WORLD COGENERATION DAY** September 4, 2020

The time has come to celebrate essential CHP workers, and your CHP projects that have kept the lights on for communities and critical facilities. Healthcare, Agriculture, Industry, and Infrastructure. Recognize your people and elevate CHP. Sponsor your event at <https://worldcogenerationday.org/>
