empowering women since 1881

President's Message

I don't know about you, but I got caught up in the basketball fever raised by the incredible play of Caitlin Clark. Not only is she an amazing athlete, but she appears to be a level-headed young woman, down to earth despite the huge publicity of her success.

However, I was miffed when I learned that when she accepted a new position, playing for the Indiana Fever of the Women's National Basketball Association, it was for a mere \$76,535 per year. Yet, she was the No. 1 draft choice!!

Victor Wembanyama was the No. 1 overall pick in the last National Basketball Association (Men's) Draft . His rookie year salary was reportedly \$13,793,692.

Admittedly, Caitlin is earning lots of other cash with endorsements and all. However, I am sure that is also true for Victor. Sponsorships for WNBA and NBA games are very disparate with a large gap, too. But, that too is very unfair. Caitlin has been filling every stadium to capacity. See the Daily News headline below of a tennis match years ago.

Just goes to show you that the wage gap is still very real for women. There is a pay gap not just in basketball but in every facet of the labor market.

What can we do about this?
