

The Bengali community largest concentration of unreached peoples 300 million there 1000 UPGs and less than 1% follower of Jesus Christ and live under the influence of fear and superstitions,

- Bengalis 300 Million there 1000 plus UPGs
- Pray for Bengalis
- Math 24:14: —And this gospel of the kingdom shall be preached in all the world for a witness unto all nations; and then shall the end come
- Rev 7:9 After this I looked, and there before me was a great multitude that no one could count, from every nation, tribe, people and language, standing before the throne and before the Lamb. They were wearing white robes and were holding palm branches in their hand

looking to spiritual guides and amulets for protection. They need the hope and reassurance that comes from the gospel message — but very few people are going out and sharing the word of God, there are many contributing factors. Firstly, the mission leaders those are working among Bengali community they are not even from the Bengali community, as they come from different places or different states, appointed from the different organizations and churches and they do not know culture and language of Bengali and at this point when they going to the community and community does not accepting themselves.

Other side there are many Bengali community ordinary peoples has willing to share the word of God through finding person of peace Luke 10, these people even know what to share and what not to share. Still, they simply are not able to go because they must take care of the family and work 12 hours shifts in offices or factories. So, they do not find any financial back up as they are working by- vocationally and at this point we need to **empower** them by **income generations training**.

These are some reasons why believers of Jesus Christ are not growing amongst the Bengali community and UPGs.

How does the TEA network Empowering to the local Bengalis Believers and ordinary leaders to get spiritual and financial freedom?

Transform East Alliance, **TEA, Empowering** to the local Bengali ordinary leaders by training thing to understand the Movement by disciple making principle is “ Simple Thing Grow and Simple thing Multiply as we read book of Luke 10 where Jesus wanted to go but He did not go but He sent His ordinary Disciples to do extraordinary things by run the Discovery Bible Study and then groups developed in the home churches also leaders to start their own businesses like tent making such as Paul's strategy, so that they can earn a living through that and support not only their own family but also help people who are in need. The **TEA** gives extended training to leaders in a very frequent schedule, so that they can be even more equipped to win souls for the kingdom of God. Through the initiatives helps the leaders not only to be self-dependent but they get extra time to spend with God in prayers.
