Furniture! Floors! Windows! Doors! Appliances! Home Décor!
Find all you need – and more – at the Habitat ReStore!

Habitat ReStore is an environmentally conscious decision as much of what is accepted and sold is gently used product that would otherwise end up in a landfill. Over the past thirty years, Habitat ReStores across Canada have diverted 950 MILLION pounds of household items and building supplies from landfills!

Together, we can make an incredible difference in the lives of families in our community.

"Homeownership, simply put, was a dream before Habitat for Humanity. Always a goal but, in reality, I never believed I'd have a home to call our own. Without Habitat, my family would not have a home to build lifelong memories, to feel what being part of a community is. My wish is to give back!" – Sara, Habitat partner family since 2017

"I left an abusive marriage with two kids and \$40 in my pocket. I lived in homes not fit for animals. But then God blessed me with the help I desperately needed - and Habitat Fredericton is top on the list. Thank you for your grace in the times I stumbled and the hand to help me back up "

-Wendy, Habitat partner family since 2012
