Construct Your Innovatome.
Redesign Progress.**

[UN]disciplined Ventures. A Future Conglomerate.

RESEARCH | STRATEGY | DESIGN

Mission

[UN]disciplined Ventures is a group of frontier companies and organizations leading the way towards a sustainable and equitable tomorrow. The four current ventures, graphically outlined below, harness an expansive range of theoretical and applied methods, such as collaborative research and development (R&D), speculative design, forecasting strategy, principles of (un)design, and modern philosophy to tackle local and global challenges.

[UN]DISCIPLINED VENTURES | CURRENT VENTURES

1. **Venture #1** | [UN]DISCIPLINED DESIGN

« As the primary umbrella enterprise of the [UN]disciplined Ventures, [UN]disciplined Design outlines the spirit and direction of the [UN]disciplined franchise. »

2. **Venture #2** | INNOVATOMICS RESEARCH & TECHNOLOGY, INC. (IR&T)

« IR&T helps others build their *innovatomes* in a complex, yet adaptive, innovation ecosystem, while also pioneering boundary shattering research and development. »

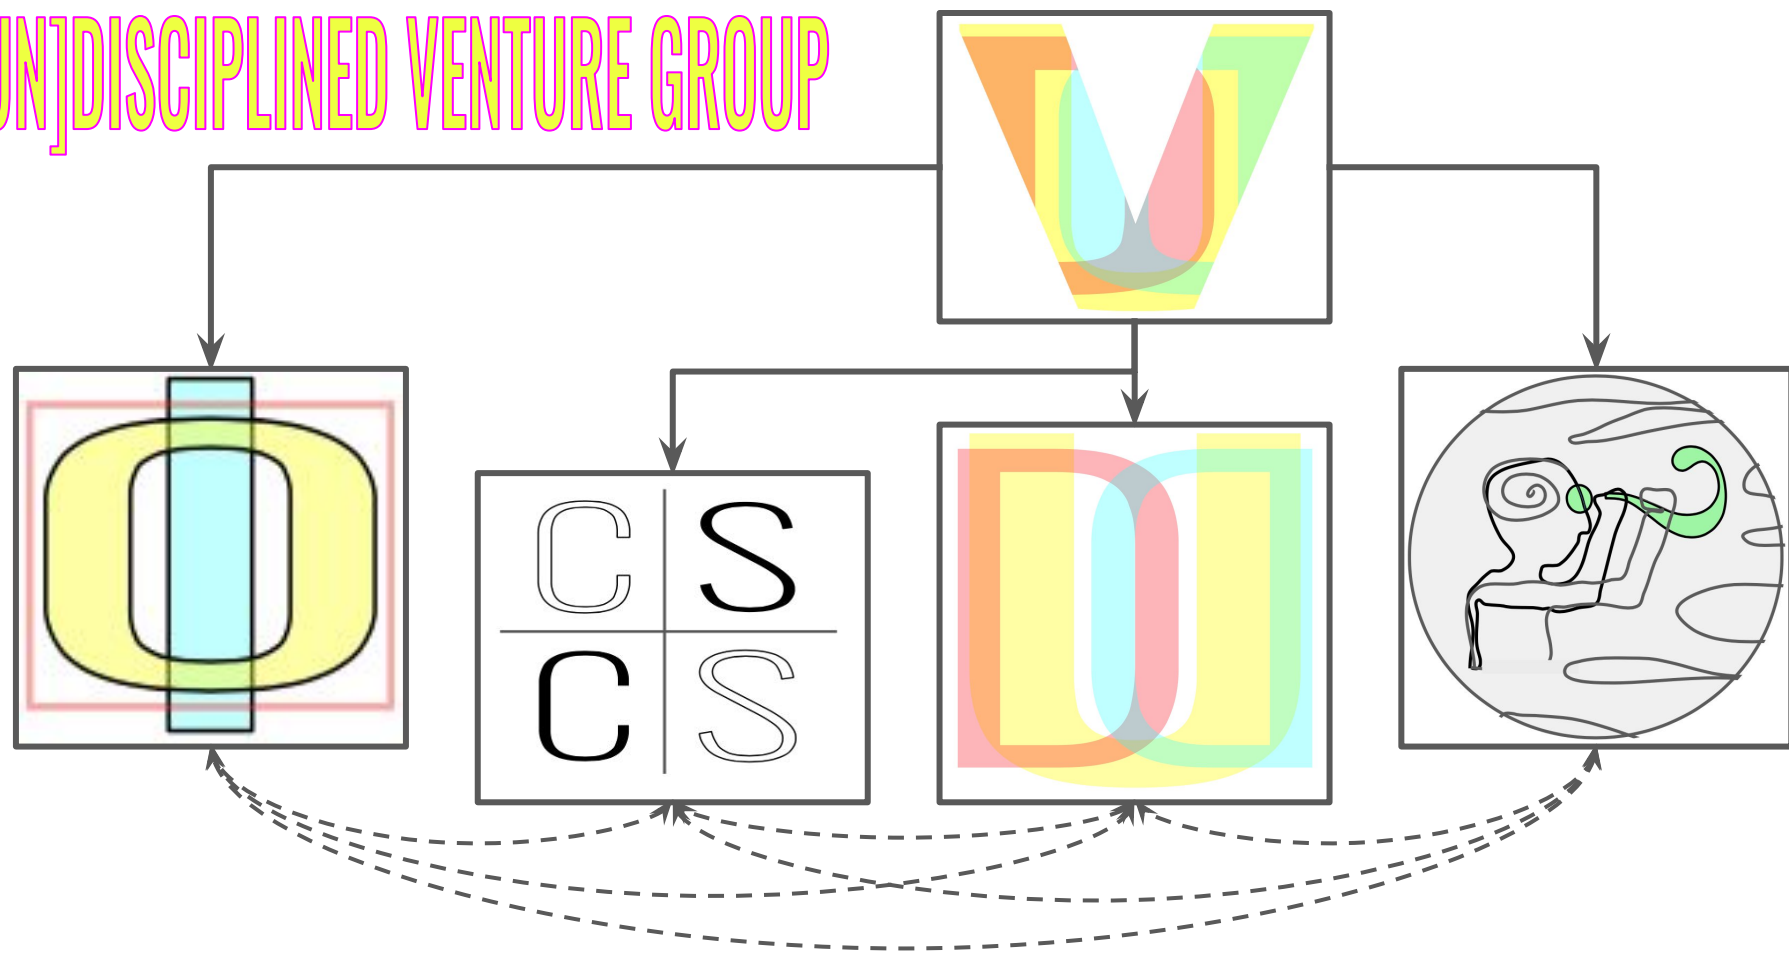

3. **Venture #3** | INSTITUTE FOR FUTURE STUDIES & PROGRESS CRITICISM

« IFS&PC introduces a field of applied philosophy of constructive criticism utilizing tools from forecasting strategizing and emerging technology awareness. »

4. **Venture #4** | CONSILIENCE CONSULTING, LLC

« Consilience Consulting, the newest addition to [UN]DISCIPLINED VENTURES, truly embodies the spirit of undisciplinarity and undesign engineering. »

[UN]DISCIPLINED VENTURE GROUP

Demonstrated in the graphic above left-to-right are: Innovatomics Research & Technology, Inc (IR&T), Consilience Consulting, LLC (CS²), [UN]DISCIPLINED DESIGN ([UN]), and the institute for Future Studies & Progress Criticism (INSTITUTE [4] PROGRESS). Check out the respective pages!

UNDISCIPLINARITY

WHAT DO THEY MEAN?

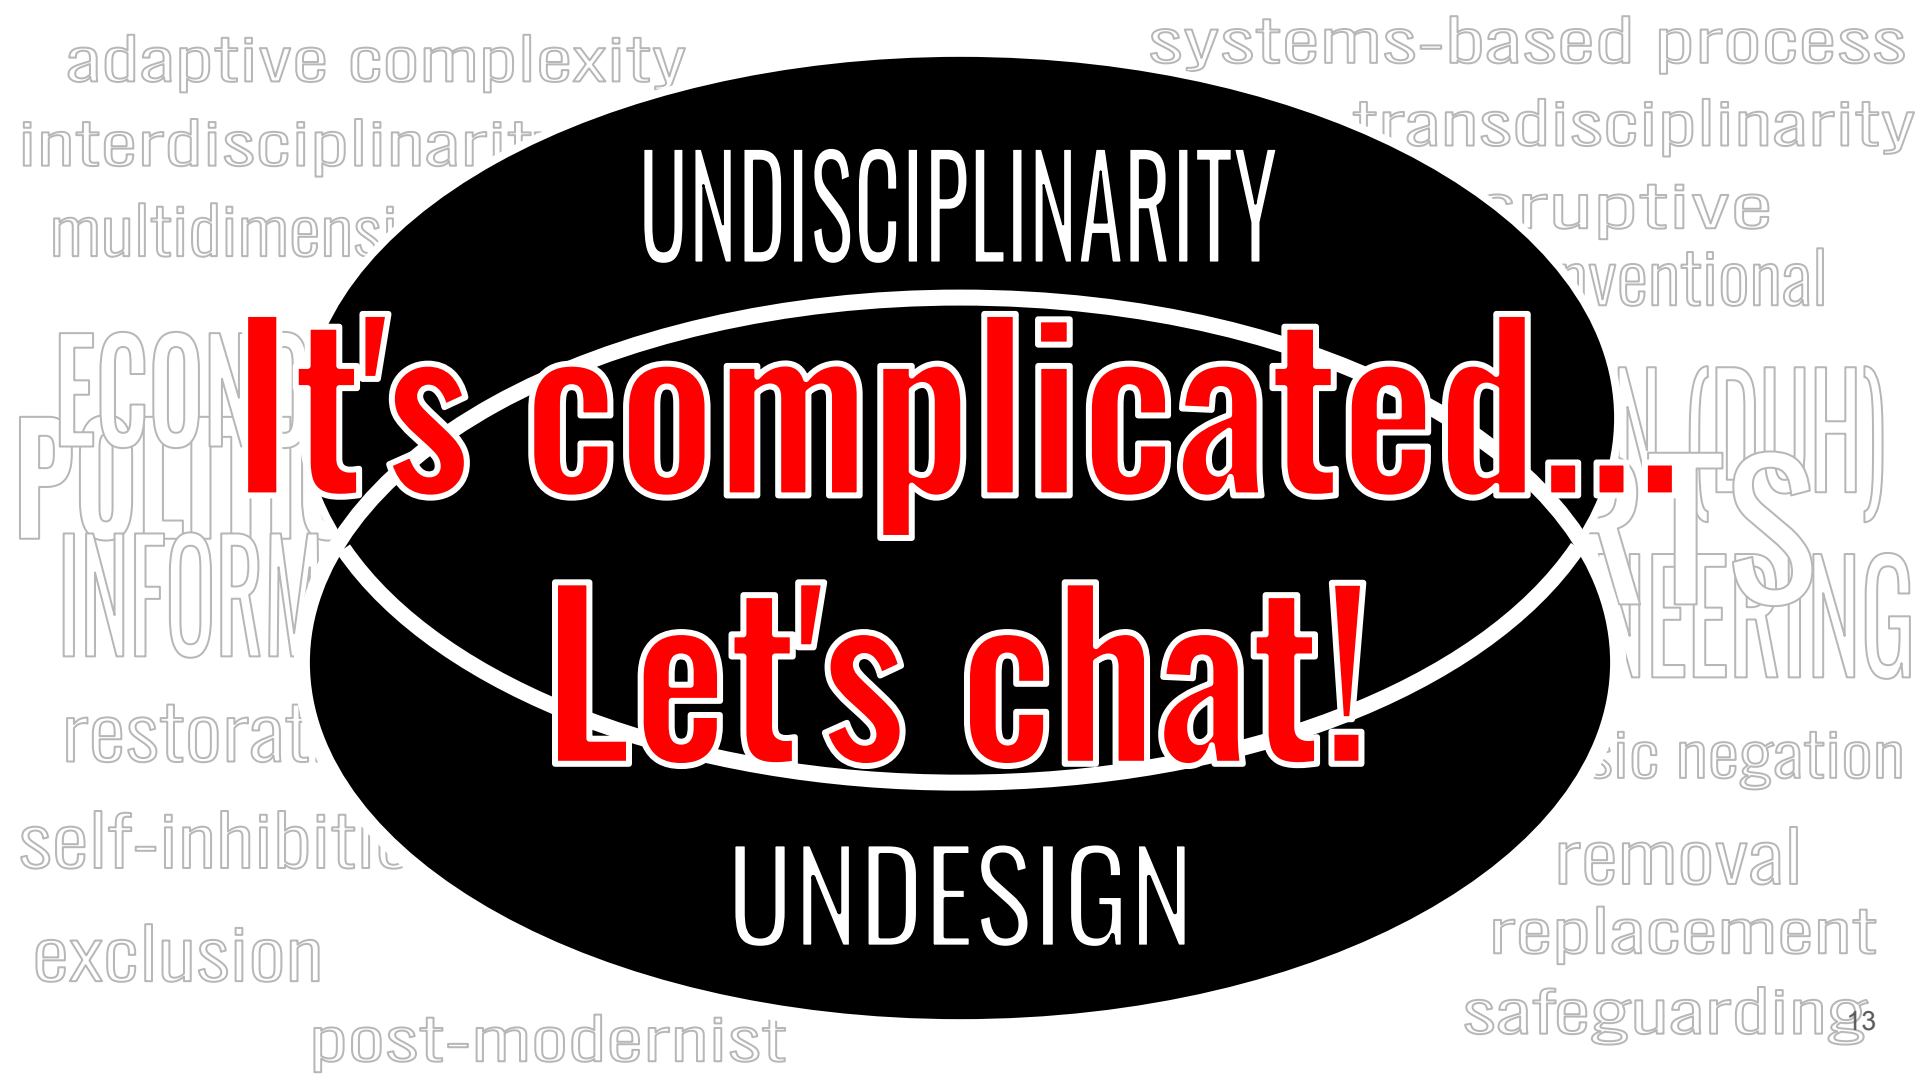

UNDESIGN

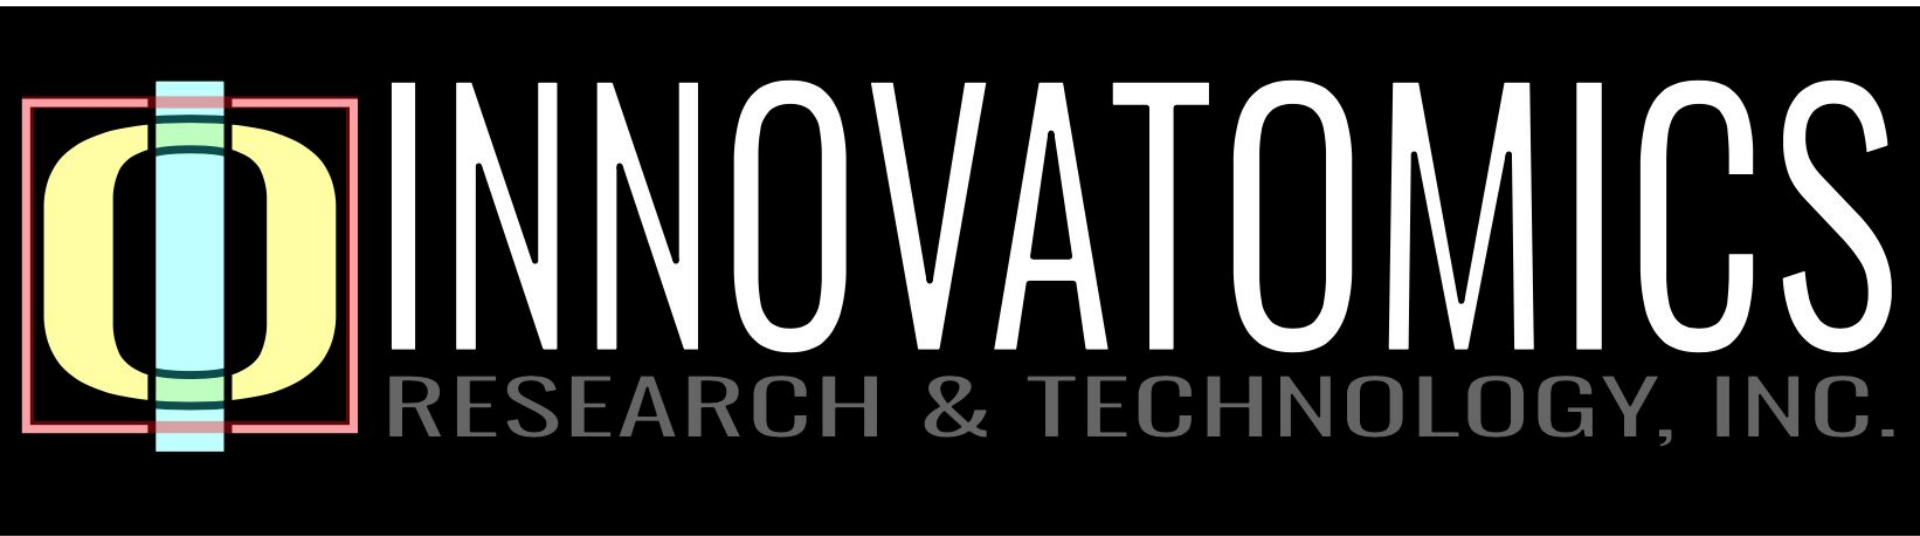

UNDISCIPLINARITY

**It's complicated...
Let's chat!**

UNDESIGN

Venture #2 | **INNOVATOMICS RESEARCH & TECHNOLOGY**

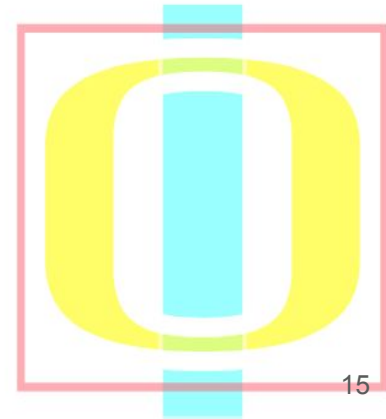

Keywords: Collaborative R&D, Emerging Technologies,
Sustainable Innovation, Foresight Strategy, Speculative Design

Welcome to Innovatomics Research & Technology, a visionary enterprise that embodies an -omics approach to innovation, where the convergence of various disciplines fuels groundbreaking research and technological advancements.

Much like the suffix "-omics" in genomics or proteomics signifies a comprehensive study of entire systems, Innovatomics adopts a holistic perspective in exploring the intricate networks of emerging technologies.

We are not confined by silos; rather, we embrace a synergistic approach, integrating insights from diverse fields to create a rich tapestry of knowledge. Our commitment to -omics innovation positions us uniquely, allowing us to navigate the complexities of the technological landscape with a thorough understanding of interconnected systems.
