Through Our Programs we deliver curriculum that has a holistic approach and incorporates time honoured early childhood education frameworks.

Our Academic companion contains an exhaustive list of classroom activities with well-defined learning objectives.

Concepts are taught through Activities, Practice tasks, Stories and Rhymes using real-life examples to strengthen every domain of early childhood development.

Designed to impart Speaking and reading Skills, for young learners, thereby improving the child's language skills.

Infrastruture

A neat infrastructure includes Classrooms, Play area, Bathroom and Office Space. Fresh air with good ventilation system. Furnitures are durable and child safety.

Child-Safe play equipments and Age appropriate Toys.

A clean entry way and exit....

Outdoor play area are properly fenced and gated.

Staff

Staff both Teaching and Non-Teaching Staff are well-trained and genuinely interested in spending time with Kids.

The primary goal of each staff is that each child feels secure, comfortable and happy in attending school.

Staffs maintain a nurturing approach towards each child.

Staffs also respond to non-verbal clues of kids and maintain an eye-contact.

Planning for a Smooth Transition

The transition to kindergarten is respected as a major milestone not only for the child, but for his family as well. The attitude toward school and learning that the child carries with him for life is often determined by this very first experience with school. A smooth transition to kindergarten can help make sure your child is successful in school. It is essential then that parents, child care providers, and kindergarten teachers work closely together to minimize the negative aspects of the transition to kindergarten. Doing so provides lasting benefits for all involved.

Benefits for children

Improved self-confidence.

Better relationships with other children and adults.

Greater trust between teachers and children.

Increased motivation and openness to new experiences.

Enhanced continuity with earlier educational experience.

Benefits for Parents

Increased confidence in their children's ability to achieve in the new setting.

Increased commitment to their ongoing involvement in the educational process.

Improved self-confidence in their own ability to communicate with educational staff and to effectively influence the educational system.

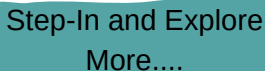

Toys

The Montessori philosophy is based on encouraging children to explore the world around them. Play is a key part of that exploration, as children learn by touching and playing with objects. As a result, it's important for you as a parent to look for toys that will help your child learn and grow outside the classroom.

What is a Montessori Toy?

A Montessori toy is one that stimulates learning by encouraging kids to experiment. It should be a toy that they can hold and touch, as learning to manipulate objects is key in helping children develop their fine motor skills.

The toy should also give them the opportunity to work independently at their own pace and use their creativity.
