****This is our current scent list. Customs are always open & have the same 7-10 business day tat unless we have to order oils. This is a general list of everything we carry, but in stock scents may vary depending on orders. If we are out of stock it doesn't mean the scent won't come back. Also if you don't see a certain scent listed on the site it doesn't always mean we're out of stock either. We rotate out scents based on season change, popularity & availability.
