# THE MARKET PLACE

The Market Place is known around the world as the fundamental place where trade and commerce commences in most economies.

In the 21st century, the market place has become somewhat sophisticated yet remote with the advent of social media.

## HIGHLIGHT

We are hosting the very first of the Business Networking Sessions in 2025 to be the Market Place where:

- People can engage with other people face to face
- Opportunity to present and discuss your services and or product
- Share and showcase what you wish to promote
- Discuss with real people with real emotions and real opportunities without the fake social media front
- Build direct relationships and networks with people in the person
