## Understanding Neurology

- Psychosocial implications
- Applications in biomechanics
- Association with physiology

Monday 14th June, 2021

Point Walter Golf Course  
Honour Avenue, Bickton

# Guest Presenters

**Ian Wee** is Managing Director for Perth Integrated Health Group of Companies and known in the medical and clinical field for his diverse portfolio which spans clinical medicine with the focus in neurology, his work as a Sports Medicine specialist as well as Director for Sports Medicine Australia. In the NDIS scope he is also known as a Principal Occupational Therapist, Specialist Support Coordinator and Accredited Behaviour Therapist.

**Fiona Grierson** is the NDIS Manager at Perth Integrated Health and was diagnosed with Multiple Sclerosis over 20 years ago. She also has over 30 years' experience in community and business development, working with Aboriginal Communities in the Pilbara and Kimberley Regions.

**Lauren Meredith** is a committed and passionate member of atWork Australia's senior leadership team. She has more than 10 years' senior professional experience spanning healthcare, employment services, energy, business and marketing consulting.

**Shayne Johnston** is an IT specialist, currently studying a Diploma of Theology. Shayne did not let the challenges of living with Spina Bifida affect his love of sport. As a junior Shayne competed nationally and internationally in swimming, wheelchair basketball, and field events.

**Sarah Langmead** has over 30 year's experience in WA in the field of nursing. Prior to sustaining a a spinal cord injury Sarah worked as a Neuroscience Nurse Researcher. She is here to share her journey and talk about her neurological healing.

# Program

The Perth Integrated Health focus on Neurology in NDIS is based on cumulative medical and clinical experience spanning over 30 years. Neurology cannot be seen in isolation as it permeates the human fibre in every aspect of our being from biomechanical, physiological and psychological and its impact is felt functionally, cognitively and emotionally in our daily lives. This Symposium is but a synopsis of its impact.
