

## FINISH (TEXTURE) OPTIONS FOR KILN DRIED TIMBERS

KILN DRIED TIMBERS ARE DRY AND READY TO BE "TEXTURED" OR "FINISHED" TO YOUR LIKING. MTM OFFERS A VARIETY OF TEXTURE / FINISHES:

### - ROUGH MILL

THESE TIMBERS ARE RIPPED FROM THE BIGFORK SAWMILL & DRY KILN WITHOUT ANY FURTHER PROCESSING. THEY HAVE THE MAXIMUM AMOUNT OF NATURAL CHARACTER: SURFACE CORROSION, FULL SAW MARKS, MATERIAL HANDLING SCRAPES & GOUBES, AND EVEN A DAB OF GREASE MARK! THESE CHARACTERISTICS MAY SOUND EXTREME, BUT SOME PEOPLE LOVE THEM. ROUGH MILL TIMBERS ARE THE LEAST UNIFORM IN SIZE DUE TO VARIATION IN SHRINKAGE FROM DRYING FROM PIECE TO PIECE, AND NO FURTHER PROCESSING TO MAKE THEM MORE UNIFORM. WE WILL DISCUSS THE SIZE VARIANCE WITH YOU, WHICH DEPENDS ON THE OVERALL DIMENSIONS (THE BIGGER THE DIMENSIONS THE GREATER THE VARIATION)

### - BRIGHT SAWN

TIMBERS ARE RUN BACK THROUGH OUR BAND SAWS TO APPLY A CLEAN, FINE BAND SAWN TEXTURE. WE CAN VARY THE "FINENESS" OF THE SAW MARKS BY USING DIFFERENT BLADES. BRIGHT SAWING PROVIDES THE OPPORTUNITY FOR US TO MAKE THE DIMENSIONS MORE UNIFORM.

- SURFACED - THIS IS THE MOST UNIFORM & SMOOTHEST. IT IS ALSO TYPICALLY THE MOST EXPENSIVE. BUT IT'S NICE.

- FINALLY, ASK ABOUT OUR HAND HEWN "FINN FINISH" ☺
