

How To CARE FOR YOUR SERVING BOARD

CARING FOR YOUR MTM CUTTING / SERVING BOARD IS SIMPLE!

WHEN WASHING IS REQUIRED, USE A DAMP RAG WITH A BIT OF SOAP TO WIPE DOWN OR SCRUB YOUR BOARD. LET DRY NORMALLY.

TIME & WASHING WILL EVENTUALLY LEAD TO THE NEED TO RE-OIL YOUR BOARD. WE USE FOOD GRADE MINERAL OIL INITIALLY, WHICH WORKS GREAT. BUT YOU CAN ALSO USE ANY VEGETABLE OIL. RUB IN WITH A RAG OR PAPER TOWEL AND LET SIT FOR A BIT TO FULLY ABSORB. IT'S ABOUT THE APPEARANCE MORE THAN ANYTHING, SO IT'S UP TO YOU HOW HEAVILY TO OIL YOUR BOARD.

THERE ARE OTHER PRODUCTS AVAILABLE TO CARE FOR & RESTORE YOUR BOARD, ESPECIALLY WHEN IT IS USED FOR CUTTING. CHECK INTO WOOD CONDITIONERS OR BUTCHER BLOCK MAINTENANCE PRODUCTS READILY AVAILABLE FROM YOUR HARDWARE STORE.

AS ALWAYS, YOU CAN REACH US ANY TIME VIA THE CONTACT FORM AT MNTIMBER.COM 😊
