| 1x4 Birch Millwork Premium Nickel Gap | <p>•3/4" Actual Thickness. •3-1/2" Overall Width. •3-1/4" Face width (Coverage) •Drum Sanded to 120 Grit •End Matched Flush Tongue & Groove. •Lengths range in 1 inch increments from 2' to 8' (heavy to 5' to 8') and occasionally include some 9' to 12'. •Lumber Originally Kiln Dried to 6-8% Moisture Content. •Some pieces will have slight to medium non-flatness, side bend, or twist. This is a natural characteristic of the grain of the wood, or the drying process. •Pieces vary in Color from whitish sapwood to reddish/brown heartwood, most pieces mixed. Occasional pieces will have many small orange "flecks" and/or mineral streaks. Slight dry kiln stick marks will show on some pieces. Some pieces will contain off-white color streaks/ blotches from dead standing trees, aged logs, or well aged lumber. •Unlimited knots, including all sizes of sound knots and occasional unsound smaller knots. Live knots will be reddish black in color and dead knots will be black. Many knots will be cracked and partially broken. Sound bark pockets and bark edges are allowed, but will be scattered. •Occasional streaks of light to medium natural decay are allowed, if they do not render the piece unstable. •Occasional pieces will have light to medium insect holes that tend to be blackish and small. •Natural cracks from the tree and the drying process (not splits from felling, sawing or milling) are allowed if they don't hinder the overall integrity of the piece •Occasional raised grain, tearouts, chipped edges, slight planer cracks may occur. "Wane" (or absence of wood) or tear out on any areas that will be hidden once installed (tip of the tongue, back of the groove, the entire back side) are allowed unlimited.</p> |
| 1x5 Birch Millwork Premium Nickel Gap | <p>•3/4" Actual Thickness. •4-1/2" Overall Width. •4-1/4" Face width (Coverage) •Drum Sanded to 120 Grit •End Matched Flush Tongue & Groove. •Lengths range in 1 inch increments from 2' to 8' (heavy to 5' to 8') and occasionally include some 9' to 12'. •Lumber Originally Kiln Dried to 6-8% Moisture Content. •Some pieces will have slight to medium non-flatness, side bend, or twist.
