IV INFUSION

IV BENEFITS:

- Immediate/ Most Effective Hydration
- Restore Mitochondria Function
- Promotes Immediate and Abundant Bioavailability of Micronutrients
- Higher Dosing Ability
- Boost Immunity
- Boost Weight Loss
- Better Cognitive Function
- Detox and Flush Free Radicals
- Enhance Energy and Mood
- Support Organ Functioning
- Relieve Cold/ Flu, Food Poisoning, Migraine, and Hangover Symptoms.
- Better Skin, Joint, and Muscle Functioning
- Reduce Recovery Time/ Faster Healing
- Improve Athletic Performance
- Improve General Wellbeing
- and so much more!

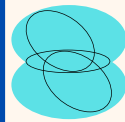

IM INJECTION

IM BENEFITS:

- Cut supplement cost
- Better absorption and bioavailability than oral route
- Saves time compared to IV route.

Intra Muscular (IM) injections offer all the benefits of Intravenous (IV) therapy without the hydrating fluid volume; It's an excellent choice when you're short on time.
