

Dear Racism,

I Wish you wouldn't exist but you do...

You cause a lot of bad things all the time

Slavery, stereotypes, hate, harm, division , cause war, sadness, feeling unloved, anger, emptiness

Why do you do these things?

How do we deal with you?

Is there even a chance to get rid of you?

We know it is difficult but we want to see at least less of as you but with **patience, awareness, tolerance and peace we can get less of you.**

Hope to never see you again
