

Internal Misconduct Can Disrupt a Business Faster Than Any External Threat.

Independent Forensics helps leadership address internal issues quickly, discreetly, and professionally with digital evidence supporting the truth.

WHAT WE INVESTIGATE

Internal problems rarely start big. They begin with small behaviors that grow into major risks:

- Employee misconduct
- Misuse of company data or systems
- Fraud or financial irregularities
- Policy violations
- Conflicts of interest
- Unauthorized access or information leaks

These issues can quietly damage operations, morale, and trust — especially in small and mid-sized businesses where every role matters.

HOW WE HELP

We provide neutral, third-party investigations that give leadership clarity without internal bias.

- Objective fact-finding
- Discreet interviews and documentation
- Digital evidence collection (messages, emails, access logs, device data)
- Timeline reconstruction
- Clear, actionable findings for executives and counsel

WHY BUSINESSES CHOOSE INDEPENDENT FORENSICS

- Issues are handled quietly and professionally
- Leadership gets verified facts, not assumptions
- Digital evidence strengthens HR and legal decisions
- Problems are contained before they escalate
- The business stays protected and moving forward

Internal threats are real — but they're manageable when addressed early.

If you're facing a sensitive internal issue, **Independent Forensics** provides the clarity and evidence you need to act confidently.
