

Chama or Sublette Log Bunk House - HO Scale

Unique log etched walls and stone foundation make this a great addition to any Chama or Sublette scene, with different door and window options.

- Laser cut parts, craft paper roofing, basswood etched plank siding, laser cut doors and windows.
- 3D printed chimney can either be stepped or straight depending how it is attached.
- Footprint 3" x 4"

MCS-1057, \$65 + shipping

Boiler House By The Pro Patria Mill - HO Scale

This kit represents a small boiler house for power generation which was next to the Rico Pro Patria Mill.

- Laser cut parts
- HO Scale Footprint roughly 2.5" x 3"

MCS-1055, \$45 + shipping

Rico Power-House - HO Scale

This kit represents the power-house which sat near the Rico depot and changed constantly. It was built in the late 1920s, and generated power throughout the 1930s. Later the structure was likely used as storage. Eventually the front half was torn down, and only the back half remained after RGS abandonment.

- Laser cut parts
- Corrugated roofing
- HO Scale Footprint roughly 7.5" x 9.5"

MCS-1054, \$125 + shipping

Butterfly Mill - HO Scale

The Butterfly Mill near the Ophir Loop was the second at this location, circa 1930s. Two loading dock doors allow operational options for boxcars, and scenery integration allow flexibility for your scene.

- Laser cut parts
- Corrugated roofing
- Tar paper siding
- injected molded plastic windows & doors
- HO Scale Footprint roughly 13" x 10"

MCS-1051, \$235 + shipping

Butterfly Small House - HO Scale

This kit represents the small house which faced the Butterfly Trestle and sat between the Butterfly Mill and the Butterfly office.

- Laser cut parts
- Gray roll roofing
- injected molded plastic windows and door
- HO Scale Footprint roughly 2.5" x 3"

MCS-1053, \$25 + shipping

Butterfly Mine Office - HO Scale

- Prototype sat facing Butterfly trestle on the RGS, a mile west (north) of Ophir Loop.
- Sheds can be built as stand-alone; windows included for places they shared walls.
- Laser cut internal MDF box for strength
- Laser cut adhesive backed windows & doors
- Tarpaper siding and roll roofing
- Footprint 9" x 2.5"

MCS-1009, \$80 + shipping

<https://youtu.be/rq8tYBw5Yc>

Chama Warehouse No.2 - HO Scale

This kit represents Warehouse No. 2 between the depot and Wool warehouse in Chama, New Mexico.

- Laser cut doors, walls, roof and roof supports
- Option to split the kit into two long rear scene false front warehouses
- Option for alternate door locations on both long walls
- Corrugated siding and roofing on a removable roof
- Board by board covered loading docks
- Footprint 10.25" x 5"

MCS-1052, \$87 + shipping

Shop-Warehouse - HO Scale

This kit creates the Placerville store or warehouse, as its use and location changed over time.

- Laser cut parts
- Corrugated roofing on removable roof
- Interior flooring provided so you can detail the interior as you wish
- Footprint 3" x 6"

MCS-1050 \$75 + shipping

Rico Engine House Coal Shed - HO Scale

This kit represents the Rico, Colorado coal shed that sat north of the engine house and in front of the bunk house.

- Laser cut parts
- Craft paper roll roofing
- Decorative end panels
- Footprint 2" x 3.25"

MCS-1048, \$40 + shipping

<https://youtu.be/qoQlXgNgBh4>

Dolores Section House - HO Scale

The Dolores section house was originally built for the section foreman, but as his family grew in size, he moved to a home nearby. There was a long shed that ran across the back during later years. The foreman's house became a supply / storage shed in the mid-forties.

- Laser cut walls, roofing, windows & doors
- 3D printed chimney
- Footprint 4" x 4"

MCS-1047, \$65 + shipping

Telluride Conoco - HO Scale

This Conoco fuel kit is based on the Telluride structure and fuel tank but could represent many other locations and fuel companies.

- Laser cut parts with removable roof
- 3D printed tank
- Craft paper corrugated
- Period accurate decal sign
- Footprint 5.5" x 5" (main building)

MCS-1046, \$110 + shipping

<https://youtu.be/pf17PthLHVE>

Placerville Conoco - HO Scale

This kit represents the Old Placerville, Colorado Conoco facility, including the main structure, pump house, and storage tank.

- Laser cut parts with removable roof
- 3D printed tank
- Craft paper corrugated roofing
- Craft paper tar-paper siding
- Period accurate decal sign
- Footprint 6" x 3" (main building), 1.5" x 1.5" Pump House

MCS-1045, \$110 + shipping

<https://youtu.be/NAY4pciTIJY>

Placerville Texaco - HO Scale

This kit represents the Placerville, Colorado Texaco facility and 3D printed tanks. Requires some board-by-board constructions for the decking and filling shed. Any gas pumps or fuel drums on the loading dock are not included.

- Craft paper corrugated and tar paper roofing
- Two 3D printed tanks
- Decals
- Laser cut parts.
- Main Building Footprint 4.5" x 9"

MCS-1049, \$150 + shipping

<https://youtu.be/NAY4pciTIJY>

RGS Section House - HO Scale

Based on the Brown, CO section house, but also includes parts to allow mirrored floorplans and possible alternate covered porches or front steps. True to prototype along the Rio Grande Southern mainline.

- Can be used to build Brown, Hesperus, Mancos, Glencoe (Montezuma Lumber), among others.
- Section house true to prototype
- Laser cut parts
- Laser cut roofing on removable roof
- Windows and doors can be mounted open or closed
- Footprint 5" x 4.5"

MCS-1044 \$70 + shipping

<https://youtu.be/qoQlxgNg>

RGS Bunk House - HO Scale

This kit creates the bunk house at Brown, Hesperus, Montezuma Lumber Siding (Glencoe), and Mancos, as well as others.

- Bunk house true to prototype
- Laser cut parts
- Laser cut roofing on removable roof
- Windows and doors can be mounted open or closed
- Footprint 2.25" x 3.25"

MCS-1043 \$55 + shipping

<https://youtu.be/qoQlxgNgBh4>

Brown Coal Shed - HO Scale

This kit represents the Brown, Colorado coal shed, but also is similar to the Rico coal shed that was next to the bunk house in the yard.

- Laser cut parts
- Craft paper roll roofing
- Decorative end panels
- Optional man door to use as necessary
- Footprint 2" x 3.25"

MCS-1042, \$40 + shipping

<https://youtu.be/qoQlxgNgBh4>

Brown Speeder Shed - HO Scale

This kit represents the Brown, Colorado speeder shed used to protect speeder cars and tools from the elements. This also works for Telluride's yard. Includes an outhouse which can be attached or used separately.

- Laser cut parts
- Craft paper shingles
- Ties and rails for speeder track
- Footprint 2.5" x 2"

MCS-1041, \$28 + shipping

<https://youtu.be/qoQlxgNgBh4>

Chama Wool Warehouse - HO Scale

Kit represents the warehouse in Chama, New Mexico used for storing wool before shipment.

- Laser cut windows, doors, walls, roof and roof trusses
- Corrugated siding and roofing on a removable roof
- Plank covered loading dock
- Footprint 8.5" x 4"

MCS-1040, \$75 + shipping

Monaghan Mine Company Trackage Warehouse - HO Scale

Third in the series representing a trackage warehouse with large covered center platform.

- Laser cut parts
- Corrugated roofing on removable roof
- Windows and doors can be open or closed
- Footprint 3.5" x 7"

MCS-1039, \$80 + shipping

Monaghan Mines Cribbing Jig - HO Scale

Cribbing template for the series of new Monaghan Mine complex kits.

- Includes cribbing template and strip wood for about a 7" x 3" section, and instructions included for expanding with your own 12 x 12s.

MCS-1038, \$25 + shipping

https://youtu.be/_yZ7XH9PS2w

Monaghan Mine Company Office & Cribbing Jig - HO Scale

First in a series of freelanced kits depicting our new Monaghan Mine complex. The mine office houses management for all operations.

- Laser cut parts
- Corrugated roofing on removable roof
- 3D printed chimney
- Windows and door can be open or closed
- Footprint 2.5" x 4"

MCS-1037, \$55 + shipping

https://youtu.be/_yZ7XH9PS2w

Dolores, Montezuma Fruit Co. Warehouse - HO Scale

The Montezuma Fruit Co. warehouse in Dolores, Colorado was the second warehouse, since the earlier structure burned in 1923.

- Laser cut walls, windows & doors
- Corrugated siding and roofing on a removable roof
- MDF inner core for strength
- Removable roof
- Footprint 5" x 8" (counting loading platforms)

MCS-1035, \$80 + shipping

<https://youtu.be/VhpxjVoBPCQ>

D&RGW Sargent Eating House - HO Scale

This D&RGW eating house, as modeled, was located in Sargent, Colorado, and is representative of crew structures built along the D&RGW and RGS right of way.

- Laser cut foundation, walls, windows & doors, roofing and siding
- 3D printed chimneys
- MDF inner core for strength
- Removable roof
- Footprint 4" x 7"

MCS-1034, \$80 + shipping

<https://youtu.be/831rgemHSiE>

Sargent D&RGW Bunk House - HO Scale

This bunk house, as modeled, was located in Sargent, Colorado, and is representative of crew lodging structures built along the D&RGW right of way.

- Laser cut foundation, walls, windows & doors, roofing and siding
- 3D printed chimney
- Removable roof
- Can be raised on laser cut foundation with steps, or flat on the ground
- Footprint 3" x 2.5"

MCS-1033, \$50 + shipping

<https://youtu.be/831rgemHSiE>

MCCARVILLE STUDIOS

BY CRAFTSMEN FOR CRAFTSMEN

Holy Moses Saloon - HO Scale

This saloon, located in Creede Colorado, takes its name from Nicholas C. Creede, who uttered "Holy Moses" upon his mineral discovery.

- Laser cut walls, windows & doors, roofing and siding
- Decals for windows and front
- MDF inner core for strength
- Removable roof
- Footprint 3" x 3"

MCS-1032, \$65 + shipping

<https://youtu.be/MsUy92ntyUM>

Placerville Residence #2 - HO Scale

This residence, the oldest in Placerville, is representative of small homes built all over the United States in mining, logging and farming communities.

- Laser cut walls, doors, shingle roofing and siding
- 3D printed chimney
- MDF inner core for strength
- Footprint 3.5" x 2.5"

MCS-1031, \$65 + shipping

<https://youtu.be/p-O5ESjmgQk>

Placerville Residence #1 - HO Scale

This residence, located on Front Street, is representative of small homes built all over the United States in mining, logging and farming communities.

- Laser cut walls, doors, shingle roofing and siding
- 3D printed chimney
- MDF inner core for strength
- Footprint 3" x 3"

MCS-1030, \$65 + shipping

<https://youtu.be/p-O5ESjmgQk>

Placerville Flour & Feed Warehouse - HO Scale

The prototype Flour & Feed warehouse sat behind the Rio Grande Southern depot in Placerville, CO.

- Laser cut walls, doors, and roofing
- Corrugated siding and roofing on a removable roof.
- Removable roof
- MDF inner core for strength
- Footprint 18" x 4"

MCS-1029, \$125 + shipping

<https://youtu.be/A9dr6-Cln1w>

Placerville RGS Warehouse - HO Scale

THIS KIT IS PRODUCED ON DEMAND: EXPECT 2 WEEKS LEAD TIME. The prototype RGS warehouse sat behind the Rio Grande Southern depot in Placerville, CO.

- Laser cut main structure, removable roof with 16 rafters, windows and doors, and small loading docks at trackside doors.
- Corrugated siding and roofing on a removable roof
- Doors and windows are adhesive backed for easy assembly and attached in open or closed position.
- Footprint 17" x 5"

MCS-1027, \$130 + shipping

The prototype Car Inspector's House sat on Cumbres Pass, which was the high point on the D&RGW route between Antonito and Chama, which is now the Cumbres & Toltec Scenic Railroad.

- Laser cut walls, doors, shingles and siding
- Removable roof
- 3D printed chimney
- MDF inner core for strength
- Footprint 4" x 4.5"

MCS-1024, \$60 + shipping

Placerville Post Office - HO Scale

The prototype Post Office sat behind the Rio Grande Southern depot in Placerville, CO. The structure had several businesses as tenants after the post office moved and still stands today.

- Laser cut walls, doors, tarpaper roofing and siding
- Removable roof
- 3D printed chimney
- MDF inner core for strength
- Footprint 2.5" x 4"

MCS-1023, \$65 + shipping

<https://youtu.be/oqVXwpGdOtk>

Fraternal Hall - HO Scale

The prototype Swede Finn Hall sat behind the Rio Grande Southern depot in Telluride, CO. It was a social club, a fraternal organization, and later a restaurant. The structure still stands today.

- Laser cut walls, doors, shingles and siding
- Removable roof
- 3D printed chimney
- MDF inner core for strength
- Footprint 9.5" x 3.5"

MCS-1022, \$80 + shipping

<https://youtu.be/APKYrML1qjE>

Old Placerville Cafe-Bar - HO Scale

Cafe-Bar from Old Placerville, CO was located where the Rio Grande Southern crossed Leopard Creek and headed east up Dallas Divide.

- Laser cut walls, doors, shingles and siding, and porch floors
- MDF inner core for strength
- Footprint 7.25" x 3.25" (Cafe), 2" x 2" (Pump House)

MCS-1021, \$110 + shipping

<https://youtu.be/CPBYovER5Xo>

6 Pack - D&RGW Phone Booth - HO Scale

This 6 pack kit represents the trackside phone booths that the D&RGW used for crew communication.

- Laser cut parts
- 2 styles of siding, board and batten and clapboard
- Tarpaper roofing

MCS-1020, \$25 + shipping

Trackside House - HO Scale

Prototype structure was in Placerville, CO that sat behind the flour and feed warehouse.

- Laser cut walls, door and shingles
- Inner core MDF for strength
- True to prototype details
- Footprint 1.75" x 3.5"

MCS-1019, \$45 + shipping

<https://youtu.be/p-O5ESjmgQk>

<https://youtu.be/xieTkgtk3ss>

Placerville Gas Station - HO Scale

Gas station from Old Placerville, CO was located across the street from the Cafe-Bar.

- Laser cut walls, doors, and siding
- Removable roof with roof trusses
- MDF inner core for strength
- Corrugated siding and roofing on a removable roof
- 3D printed gas pump
- Footprint 6.5" x 2.5"

MCS-1018, \$75 + shipping

<https://youtu.be/cTyX3FzakEU>

Telluride Newspaper Office - HO Scale

Prototype was in Telluride, CO and typical of many small false front structures.

- Interior plank floors
- Laser cut internal MDF box for strength
- Laser cut adhesive backed windows and doors, simplifies construction.
- Thin waterslide decals
- Footprint 3" x 4.5"

MCS-1017, \$60 + shipping

<https://youtu.be/NDisE-cwJrg>

Telluride Speeder Shed - HO Scale

This kit represents the Telluride, Colorado speeder shed used to protect speeder cars and tools from the elements. - HO Scale

- Laser cut parts
- Craft paper shingles
- Ties and rails for speeder track
- Footprint 2" x 2"

MCS-1016, \$25 + shipping

Telluride Engine House - HO Scale

THIS KIT IS PRODUCED ON DEMAND: EXPECT 2 WEEKS LEAD TIME. This kit represents the Telluride, CO engine house late 1890s-early 1900.

- MDF framing inner box construction
- Laser cut components and interior walls, floor and rafters.
- Plain board and batten rear wall or rear doors included.
- Note that the doors will allow up to 12' HO scale width engines, and Blackstone C-19s and K-27s will fit with doors mounted at doorway corners. One K-27 or 2 C-19s can fit tandem inside.
- Footprint 18" x 4"

Telluride Shoe Shop - HO Scale

This false front shoe and boot shop existed around 1910.

- Interior walls, plank floors and rafters
- Laser cut internal box MDF for strength
- Laser cut adhesive windows and doors.
- Footprint 3,25" x 4.75"

MCS-1014, \$75 + shipping

<https://youtu.be/e4xW0KHCDJc>

Rico Sand House - HO Scale

This kit represents the sand house located outside the southern doors of the Rico, Colorado engine house, and lasted up to RGS abandonment.

- Laser cut walls and roll roofing
- Removable roof
- Footprint 2" x 4.5"

MCS-1036, \$50 + shipping

<https://youtu.be/9a3SOhq7fCg>

OK Clothing House - HO Scale

Prototype is from Telluride, CO and was a men's clothing store.

- Laser cut walls, door and tarpaper roofing
- MDF inner core for strength
- Basswood interior scribed flooring
- Basswood board & batten exterior
- Thin waterslide decals
- Footprint 4" x 3"

MCS-1013, \$65 + shipping

<https://youtu.be/vvXbfpJw5F4>

Elite Saloon-Hotel - HO Scale

Special thanks to John Coker for allowing us to adapt his watercolor into a kit.

- John Coker <https://www.rrart.com>.
- Interior walls and floors.
- Laser cut internal box MDF for strength
- Laser cut adhesive backed windows and doors.
- 3D printed chimney
- Laser cut shingles
- Waterslide decal
- Footprint 3" x 4.75"

MCS-1012, \$85 + shipping

<https://youtu.be/QR27v-QJrMk>

Telluride Depot Restrooms - HO Scale

Prototype structure sat near the depot in Telluride, CO.

- Laser cut board and batten siding, shingles, and adhesive backed windows and doors.

- Both shingle and corrugated roof elements. - - Legs for decking reflects prototype grade.

- Footprint 2.75" x 2.5"

MCS-1011, \$30 + shipping

Dolores Depot Restroom - HO Scale

- Kit contains one restroom.
- Prototype sat sat next to the Dolores passenger depot.
- Laser cut lap siding and shingles
- Laser cut adhesive backed windows and doors.
- Footprint 1.25" x 2.25"

MCS-1010, \$25 + shipping

Placerville School House - HO Scale

Prototype still stands next to old RGS ROW

- Laser cut internal MDF box for strength
- Laser cut adhesive backed windows + doors simplifies construction and allows open sashes
- 3D printed school bell + chimney.
- Laser cut shingles
- Front + rear platforms
- Footprint 8" x 3"

MCS-1008, \$100 + shipping

https://youtu.be/kPHQa_SQmlw

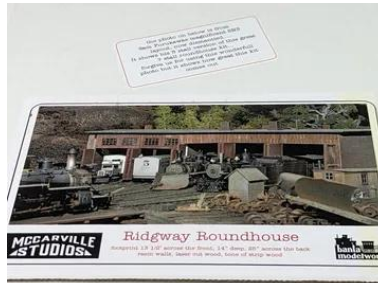

Ridgway RGS Office - HO Scale

Exclusive HO scale kit by McCarville Studios, original design by Banta Modelworks.

- Resin cast walls, and laser cut parts
- HO Scale Only
- Footprint 9" x 5.5"

MCS-1001, \$160 + shipping

Ridgway 7 stall round house RGS - HOn3 Scale

Exclusive kit by McCarville Studios, designed by Bill Banta at Banta Modelworks.

- Resin cast walls, and laser cut parts, 3D printed door details
- HOn3 Scale
- Footprint 24" x 12.5"
- 12 3/8" to center of turntable
- Roughly 9 degree angle between tracks

MCS-1002, \$495 + shipping

Placerville Barn At The Wye - HO Scale

Prototype structure sat alongside RGS tracks at the wye west of Placerville, CO.

- Laser cut board & batten siding
- Laser cut shingles
- Laser cut hinges
- Footprint 5.5" x 4"

MCS-1003, \$50 + shipping

Dallas Divide Ranch House - HO Scale

Prototype structure overlooked the RGS tracks atop Dallas Divide, west of Ridgway, CO.

- Laser cut internal box MDF for strength
- Laser cut adhesive backed windows
- Sawtooth trim on front top floor
- 3D printed chimney
- Laser cut shingles
- Footprint 5.75" x 3.5"

MCS-1006, \$80 + shipping

<https://youtu.be/Spx4zMr0YGM>
