Book Review

I've read many parenting books and taken numerous classes, but this one blew me away. It's logical, clear, and empowering approach, grounded in solid Hashkafah, brought clarity to topics like authority, rewards, and reinforcement, and re-focused my parenting and relationship with my children.

Feedback on the course

"My extremely hectic mornings were full of threats and bribes; now my mornings are much calmer and more positive and my kids really listen without the treats and threats."

"It's unbelievable! It's like a magnetic force: he wants to listen. He feels safe and secure. It's unbelievable."

"Our home has completely transformed. I was stunned—the change in our Chinuch and home is incredible. Our children are so much happier!"

R' Yechiel Yaakovson's world-renowned parenting course—the trusted blueprint for thousands of parents—is now available live in English, based on his bestseller *Spare the Child!*

Delivered by Rabbi Daniel Whitman, counselor and lecturer on behalf of Machon Yedidya (founded by Rav Yaakovson), the course is proven to be effective within a short time with results that last a lifetime. With its unique delivery style, comprehensive content, and above all - its common sense, this course leaves the listener with his or her own developed sense of intuition, rather than with a set of prefab techniques that he does not connect with and do not have a lasting effect. The course brings to life the fundamentals discussed in the book *Spare the Child* and gives many practical exercises. It is geared for parents of children of all ages.
