

AVARAI Meeting Capsule

360° Video Conference Camera

Key Features

Includes everyone: 360° panoramic 1080P HD camera, 8 mics and 90dB Hi-Fi speaker.

AI-powered autofocus: Intelligent multi-modal algorithm autofocuses on active talkers responsively.

5 video modes: Swivel lens with 5 video modes on your command for various scenarios.

Optimized voice pickup: Exclusive VoicelA® DSP algorithm features noise reduction, human voice enhancement and full duplex.

Plug and play: Launch meetings instantly without the need for cell phones or WI-FI.

Smart coverage: Extend coverage from 18ft to 36ft when daisy chained with our signature speakerphone M3.

Optimized 360° Audio and Video Coverage

360-degree 1080P conference room camera spots every detail within a radius of 13ft (4m). 8 omni-directional beamforming microphones pick up every word within a radius of 18ft (5.5m) with high fidelity. 10W/90dB Hi-Fi speaker allows every participants to hear clearly. Everyone's involved in an immersive collaborative experience.

Intelligent AI Algorithm for Natural Communication

Exclusive AI algorithm captures and presents active talkers' faces perfectly on the monitor in response to voices so that remote team members on the other end can see the talkers' faces immediately when hearing their voices, reproducing an organic face-to-face communication.
