## Key Drivers of Food Bank Need in 2025

In 2025, Alberta recorded the fastest-surging food bank demand, with visits increasing by 21.8% over 2024, the highest in the country. Total visits hit roughly 210,000 per month, with over 75,000 for children. Since 2019, demand in Alberta has increased by over 134%.

**NATIONAL SNAPSHOT (2025):** Nationwide, food bank visits doubled since 2019, with a 5.2% increase over 2024, reaching nearly 2.2 million visits in March 2025. Ontario reported a record-high, with over one million people using food banks, while Atlantic provinces like Nova Scotia and P.E.I. continued to face the highest overall rates of food insecurity.

**HOUSING COSTS:** 70% of food bank clients nationally live-in market rent housing, with soaring rents leaving little for food. LDFB stats show 72%

**THE "WORKING POOR":** In Alberta, 30% of food bank users are employed - significantly higher than the national average of 19.4%. LDFB stats show 38%.

**CHILD HUNGER:** Children accounted for 33% of all food bank visits across Canada. In Alberta, more than one-third of visits (over 75,000) were for children under 18.

The reality of 2025 is that while the need for our services has never been higher, the cost of keeping our doors open has also risen. Like the families we serve, the food bank is feeling the squeeze of inflation with food, fuel, and utilities. We are working harder and leaner to ensure every dollar goes further.

You have been there to help support whichever way you can. Your support comes in many forms: volunteering, hosting food drives, and championing our cause through local events. We are constantly moved by your willingness to show up for your neighbors. This community's spirit of giving is what makes our work possible and it is very humbling to see so many caring individuals come forward to give what and when they can.

A huge thank you to our group of approximately 70 volunteers who selflessly continue to give their precious time. You are the hands and heart of this operation. There is no doubt the food bank would not be able to maintain operations without you!

A special thank you to our staff, whose operational skills and hard work alongside our volunteers keep our doors open and our programs running smoothly. We simply could not meet the continued demand without their dedication.

Thank you to the donors, sponsors, and overall community for their unwavering support. You are "The Community Behind the Food!" You are more like partners in our mission, and the organization just could not exist without your support. "Your financial leadership provides the stability needed to keep our doors open. You didn't just give a donation; you provided a safety net for our region."

We are also deeply grateful to our Board of Directors who serve as the stewards of your generosity. Their commitment to rigorous governance and fiduciary oversight ensures that, even in this climate of record demand, our organization remains stable, transparent, and fully equipped to deliver on our mandate within the Region.

To every one of you, "YOU TRULY DO MAKE A DIFFERENCE!"

## FOOD PRICE INCREASES

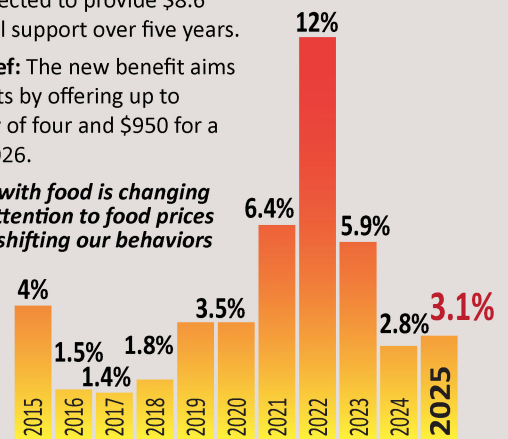

**"The year 2025 showed a 3.1% food cost increase."** Dr. Sylvain Charlebois, Project Lead, Professor, and Senior Director of the Agri-Food Analytics Lab at Dalhousie University. CANADA'S FOOD PRICE REPORT 2026

**Key 2026 Food Price Report 2026**

### Key 2026 Food Price Report 2026

- **Cost Impact:** The average family will spend \$994 more, with higher-than-average increases expected in Alberta, New Brunswick, Nova Scotia, Ontario, and Quebec.
- **Key Drivers:** High inflation is driven by supply chain disruptions, severe weather affecting crops, and high input costs for farmers.
- **Highest Price Hikes:** Meat (up 5% to 7%), dairy, and bakery items are seeing the most significant increases.
- **Food Insecurity:** About one-quarter of Canadian households are now considered food insecure.
- **Government Support:** The federal government is increasing the "Canada Groceries and Essentials Benefit" by 25% starting in July 2026, which is expected to provide \$8.6 billion in additional support over five years.
- **Household Relief:** The new benefit aims to offset rising costs by offering up to \$1,890 for a family of four and \$950 for a single person in 2026.

*"Our relationship with food is changing as we pay more attention to food prices than ever before, shifting our behaviors around purchasing and consumption."*
