Subject: RE: Enquiry relating to disposal of your products.
Attachments: Korkom - MSDS TDS.PDF

Dear Brian,

Thank you for the below email.

It is concerning to have received this, I can assure you it is not us that have disposed of this pallet in your area. Is there anything further surrounding the pallets with any names on? Looking in to details of this order I also do not believe it is the customer that has disposed of this pallet and perhaps it was a haulage company. We are based in West Yorkshire, the customer has a factory in Cheshire and also Derrylin, Northern Ireland. From your email below I believe you are North of Glasgow. L

I have attached a copy of the MSDS as requested.

Any further information ie location etc that you can provide will be a great help.

Thanks and regards

Joanne Parkinson | Company Secretary, Commercial Director.

Subject: Enquiry relating to disposal of your products.

To whom it may concern,

Please see attached photograph of a pallet of your products. This product appears to be for use within the industrial glass making industry. We suspect that unused product may be being disposed of illegally and may be damaging to the health of local residents and local wildlife in and around our village.

We understand that you cannot control what purchasers do with your products but would ask if possible to be sent copies of Coshh assessments, details of how they should be disposed of and any other Health and Safety information. This would be particularly helpful and this help would be recognised when we take our issues to SEPA, HSE, East Dunbartonshire Council, our Westminster and Scottish MP's and other relevant bodies. We do not wish to see your reputation being tarnished by unscrupulous waste management firms.

We await your reply hopefully with the requested information.

Kind Regards,

Brian J McFall
Secretary - MOCCC
