Hi Councillor Ferretti

The original email didn't specify which area they were asking about so I assumed it related to the Lennoxton poles which generated a few emails.

I have carried out the same search for Milton of Campsie and have no records of any Regulation 5 notices for that area.

Regards

Max Wilson

Hi Councillor Ferretti

I've searched our system again for Openreach notifications and can find none that relate to the recent installation of poles in Lennoxton. There are quite a number of other Regulation 5 notifications recorded in there in other areas but none for these particular works.

It is worth noting that these are just notifications. Even if we had received it there is no scope for us to refuse permission or object as such. All we could do is advise of what conditions we think might be appropriate.

Regards

Max Wilson
