

Join the Greenspace Strategy Conversation

The what?

The Greenspace Strategy is the blueprint for making East Dunbartonshire a greener, healthier, better place to live. It replaces the existing Open Space Strategy but also looks at things like how young people can get the best of the great outdoors in their area and how we can travel locally in a greener way.

When?

It's happening between July 26 and September 28 2021

How can I get involved?

You can attend one of our online community events.

If you can't make the meetings (or you're a bit shy) share your comments and suggestions for Open Space, Play Sufficiency and the Green Network via our interactive Ideas Map tool.

Can children and young people take part?

We've designed a special questionnaire just for children. So if you're aged 5 to 10, go grab an adult and ask them to help you fill out a Play Sufficiency survey. That's a big word that means, tell us what you want to see in your park and green bits near you.

We'd also love to hear from young people aged 11 to 17, as well as parents, carers and group leaders.
