Contigo Mobility

"Redefining mobility for a cleaner tomorrow"

COMPANY PROFILE

Welcome Message!

Welcome, and thank you for your time. CoMo was born on the streets of Indonesia and now, we're scaling across regions to redefine how the world moves.

We're not just building electric mobility; **we're unlocking a new asset class in sustainable transportation.**

Backed by real traction, strong partnerships, and a clear path to profitability, CoMo is a fast-growing movement empowering cities, businesses, and governments.

Born in Indonesia, scaling globally with unstoppable EV innovation — ready to accelerate with your investment.

Home > Contigo Mobility Introduces Groundbreaking Battery Swapping Stations to the UK

Contigo Mobility (CoMo), a global leader in electric vehicle (EV) mobility solutions, is delighted to announce the launch of its cutting-edge battery swapping stations across the UK, starting February 2025.

MARKETS INSIDER

My Watchlist

Contigo Mobility (CoMo), a leading player in the electric vehicle (EV) mobility sector in Southeast Asia, proudly announces its expansion to the United Kingdom with the launch of CoMoTo, an electric motorcycle ridesharing service in London. This marks a significant milestone for CoMo as it ventures beyond Asia and introduces its innovative EV solutions to the European market.

QUICK DISPATCH

CoMo, Lazada Logistics partner up to drive sustainable mobility solutions

Creative Desk (The Jakarta Post)
Jakarta • Mon, August 5, 2024

8M

The [illegible]ion of electric motorcycles to the fleet of Lazada Logistics Indonesia is part of Contigo Mobility's newly announced partnership, which also includes the conversion of internal combustion engine (ICE) vehicles in into electric vehicles and installing battery swapping stations at Lazada hubs.

VISION

To revolutionize urban mobility globally, creating a cleaner, smarter, and more accessible future powered by sustainable electric vehicle technology.”

MISION

- **Sustainable Innovation** – Develop cutting-edge EV mobility solutions that reduce carbon emissions and promote environmental sustainability.
- **Seamless Mobility** – Provide efficient, reliable, and affordable transportation options that enhance urban mobility for individuals and businesses.
- **Customer-Centric Approach** – Prioritize user experience by offering convenient, technology-driven solutions tailored to the needs of modern commuters.
- **Infrastructure Development** – Expand EV charging networks and smart mobility ecosystems to support widespread adoption of electric transportation.
- **Empowering Communities** – Create economic opportunities by integrating local businesses, fostering green jobs, and driving inclusive growth in the EV sector.
- **Strategic Partnerships** – Collaborate with government bodies, private enterprises, and global innovators to accelerate Indonesia’s transition to sustainable mobility.

Why the shift to Electric Motorcycle

Cost-Efficient & Low Maintenance

- Electricity is cheaper than fuel
- Minimal maintenance (no oil, fewer moving parts)
- Subscription model = predictable monthly cost

Green, Compliant & ESG-Ready

- Zero emissions = cleaner air
- Eligible for carbon credits & ESG reporting
- Backed by government incentives & regulations

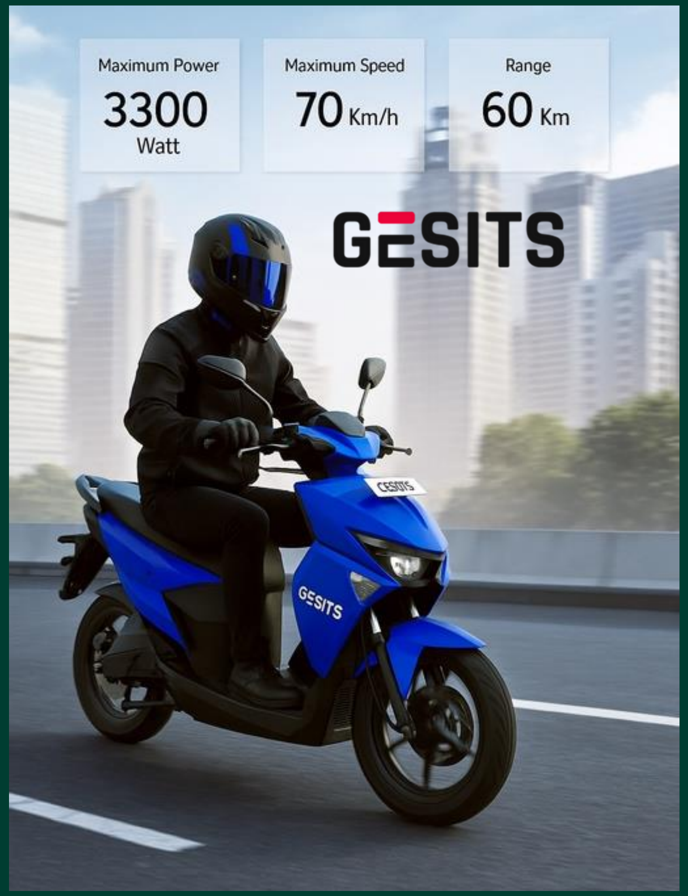
Smart, Scalable & Future-Proof

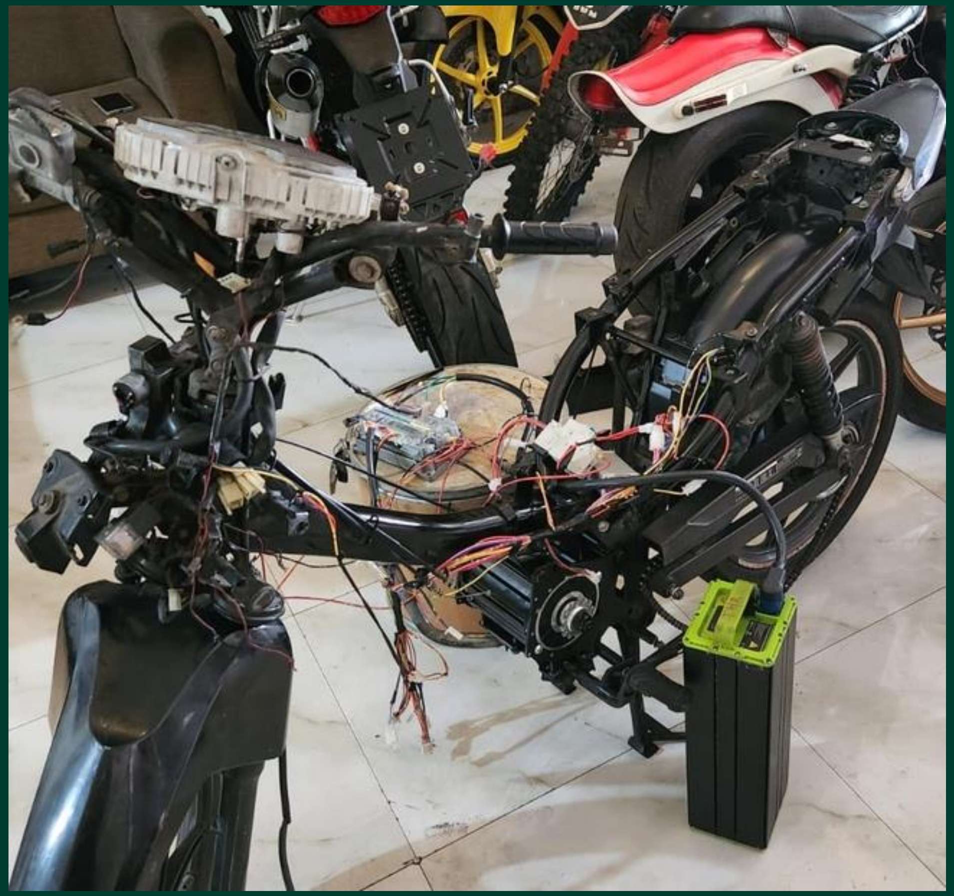
- Real-time tracking, geofencing, immobilizer
- Battery swapping = zero downtime
- Perfect for B2B/B2G operations with scalable infrastructure

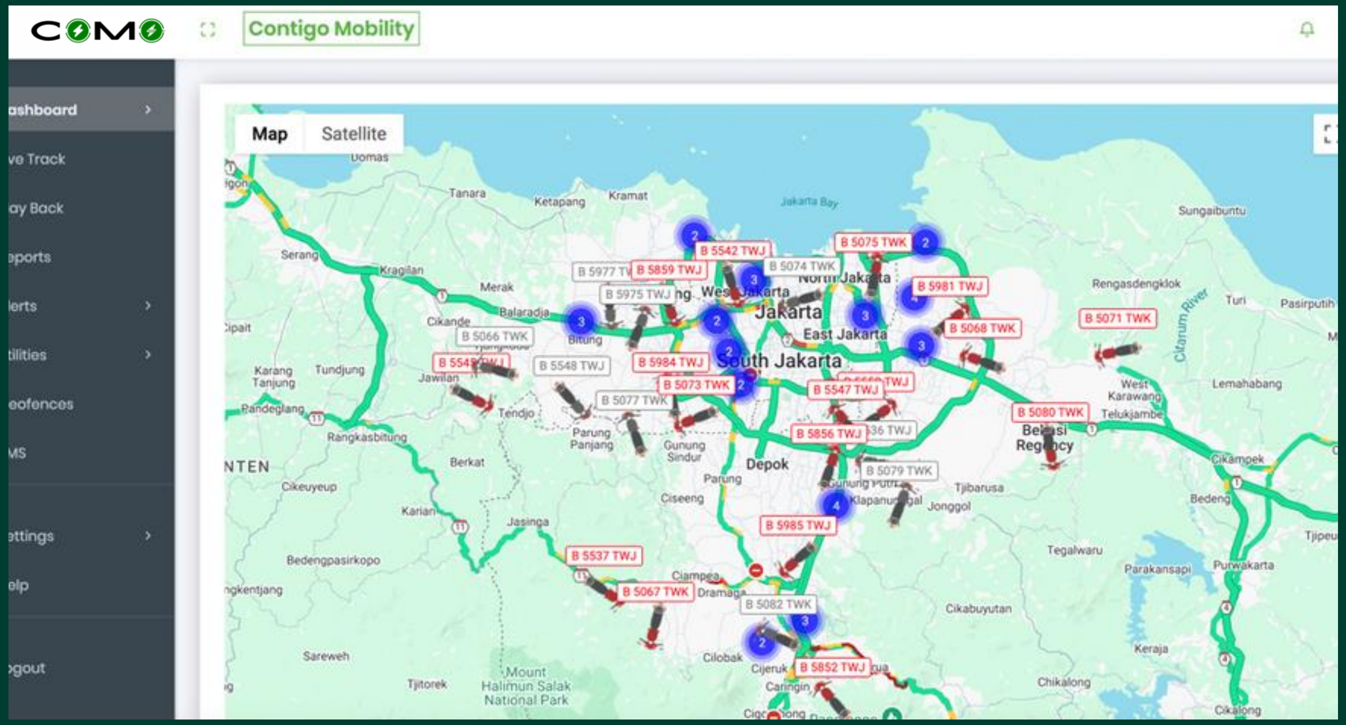
ADVANTAGES OVER POTENTIAL COMPETITORS

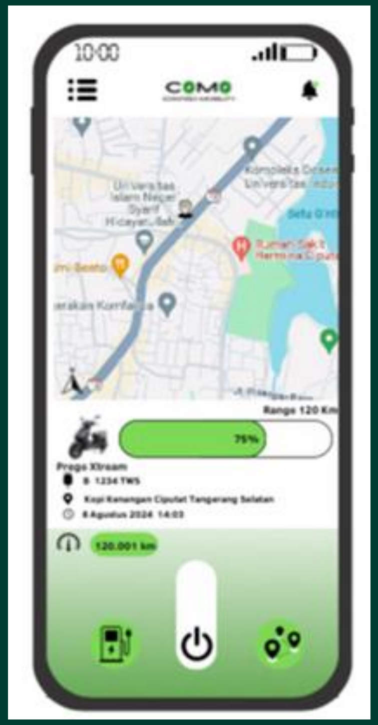
Our Value

Built on **Standards.**
Driven by **Service.**
Tailored to **Your Needs.**









We're not tied to brands — **we're tied to outcomes.** CoMo curates the best EV solutions to match your needs, powered by smart systems and seamless infrastructure. CoMo purpose built for the **B2B and B2G** market because they move with purpose, not hype. Where demand is driven by operational efficiency, liability reduction, digital transformation, and ESG compliance. Unlike the unpredictable B2C segment, **these sectors are structured, urgent, and ready for scalable electric mobility solutions.**

Business Model

Opex-Based Services

- CoMo operates on an OPEX-based, managed service model — ensuring predictable, recurring monthly cash flow.
- This structure not only provides financial stability, but also unlocks multiple revenue streams through maintenance, battery subscriptions, and ecosystem integrations.
- By embedding our services into a growing EV infrastructure, we create a scalable platform that attracts capital and delivers long-term value — making it an ideal model for forward-thinking investors.

Advanced R&D in EV Efficiency CoMo & Indonesia University of Defence

CoMo is developing a next-gen BLDC motor enhancement in collaboration with Indonesia University of Defence. This innovation introduces an integrated device inside the BLDC motor that enables automatic regenerative charging, effectively extending the EV's range without external infrastructure.

The technology is currently under joint patent registration, and will become part of CoMo's global IP portfolio, setting the stage for proprietary hardware advantage and licensing opportunities in the global EV market.

CoMo's Smart Supply Chain: Global Reach, Local Control, Maximum Efficiency

Diversified & Resilient Sourcing

- We leverage local, regional, and global suppliers.
- China remains a key partner for EV kits, batteries, and swapping tech.
- Supplier network built to match specific technical requirements

Quality-Driven Supply Partnerships

- Strict quality and service-level standards applied across vendors.
- Consistency ensured through demand-based production planning.
- Optimized supplier evaluation = scalable and reliable sourcing

Cost Efficiency Through Scale

- Our optimized supply chain allows for lower unit costs.
- Strategic planning enables price leverage across vendors.
- Built-in margin flexibility supports competitive B2B/B2G pricing

Global Assembly Expansion

- Plan to establish satellite manufacturing & assembly hubs globally.
- Co-located with demand centers to reduce logistics cost and lead time.
- Supports faster deployment and regional supply security.

Our Presence

Established Across Continents. Engineered for Global Dominance.

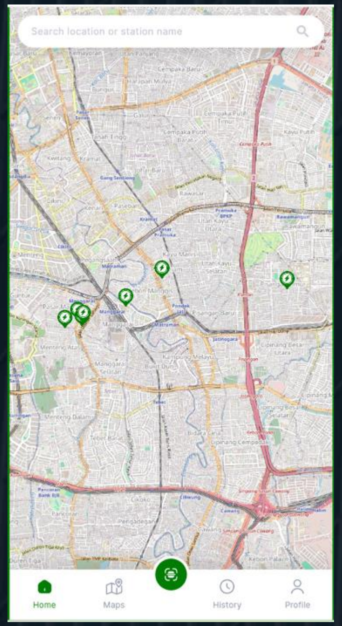
What we are deploying for London supported by London & Partners

Mobility as a Service

(CoMoTo)



Battery as a service

CoMoAI

Autonomous Vehicle

Annual Carbon Emission Savings to support Mayor of London sustainable vision

40,000 delivery riders in London

122,640 metric tons of CO_2 per year

🌍 **Equivalent Carbon Savings of 122,640 Tons CO_2:**

🚗 **Cars Off the Road**

Equivalent to taking **26,600 cars** off the road for a year

(based on ~4.6 tons CO_2 per car per year)

🌲 **Tree Planting**

Equal to the carbon sequestered by **2 million mature trees** in one year

(1 tree absorbs ~60 kg of CO_2/year)

🛫 **Flights**

Equivalent to avoiding **61,300 roundtrip flights** from London to Dubai

(~2 tons CO_2 per flight)

🏙️ **Household Energy Use**

Equivalent to the **annual electricity use of ~18,000 homes**

(average home emits ~6.8 tons CO_2/year)

Battery Recycling

Average Lifecycle

- Charging cycles: Typically 800 to 1,500 full charge cycles.
- Mileage lifespan: This usually translates to around 50,000 to 100,000 km, depending on the battery capacity, usage patterns, and climate.
- Years: On average, a lithium-ion battery will last 5 to 10 years before significant degradation.

End of Life options

- When a battery reaches the end of its useful life for driving (typically when it retains <70% of original capacity), it can:
- Be reused for less demanding energy storage (e.g., home energy storage).
- Be recycled to recover valuable materials like lithium, cobalt, and nickel.
- Be replaced, and the motorcycle can continue running with a new pack.

Growth Projections

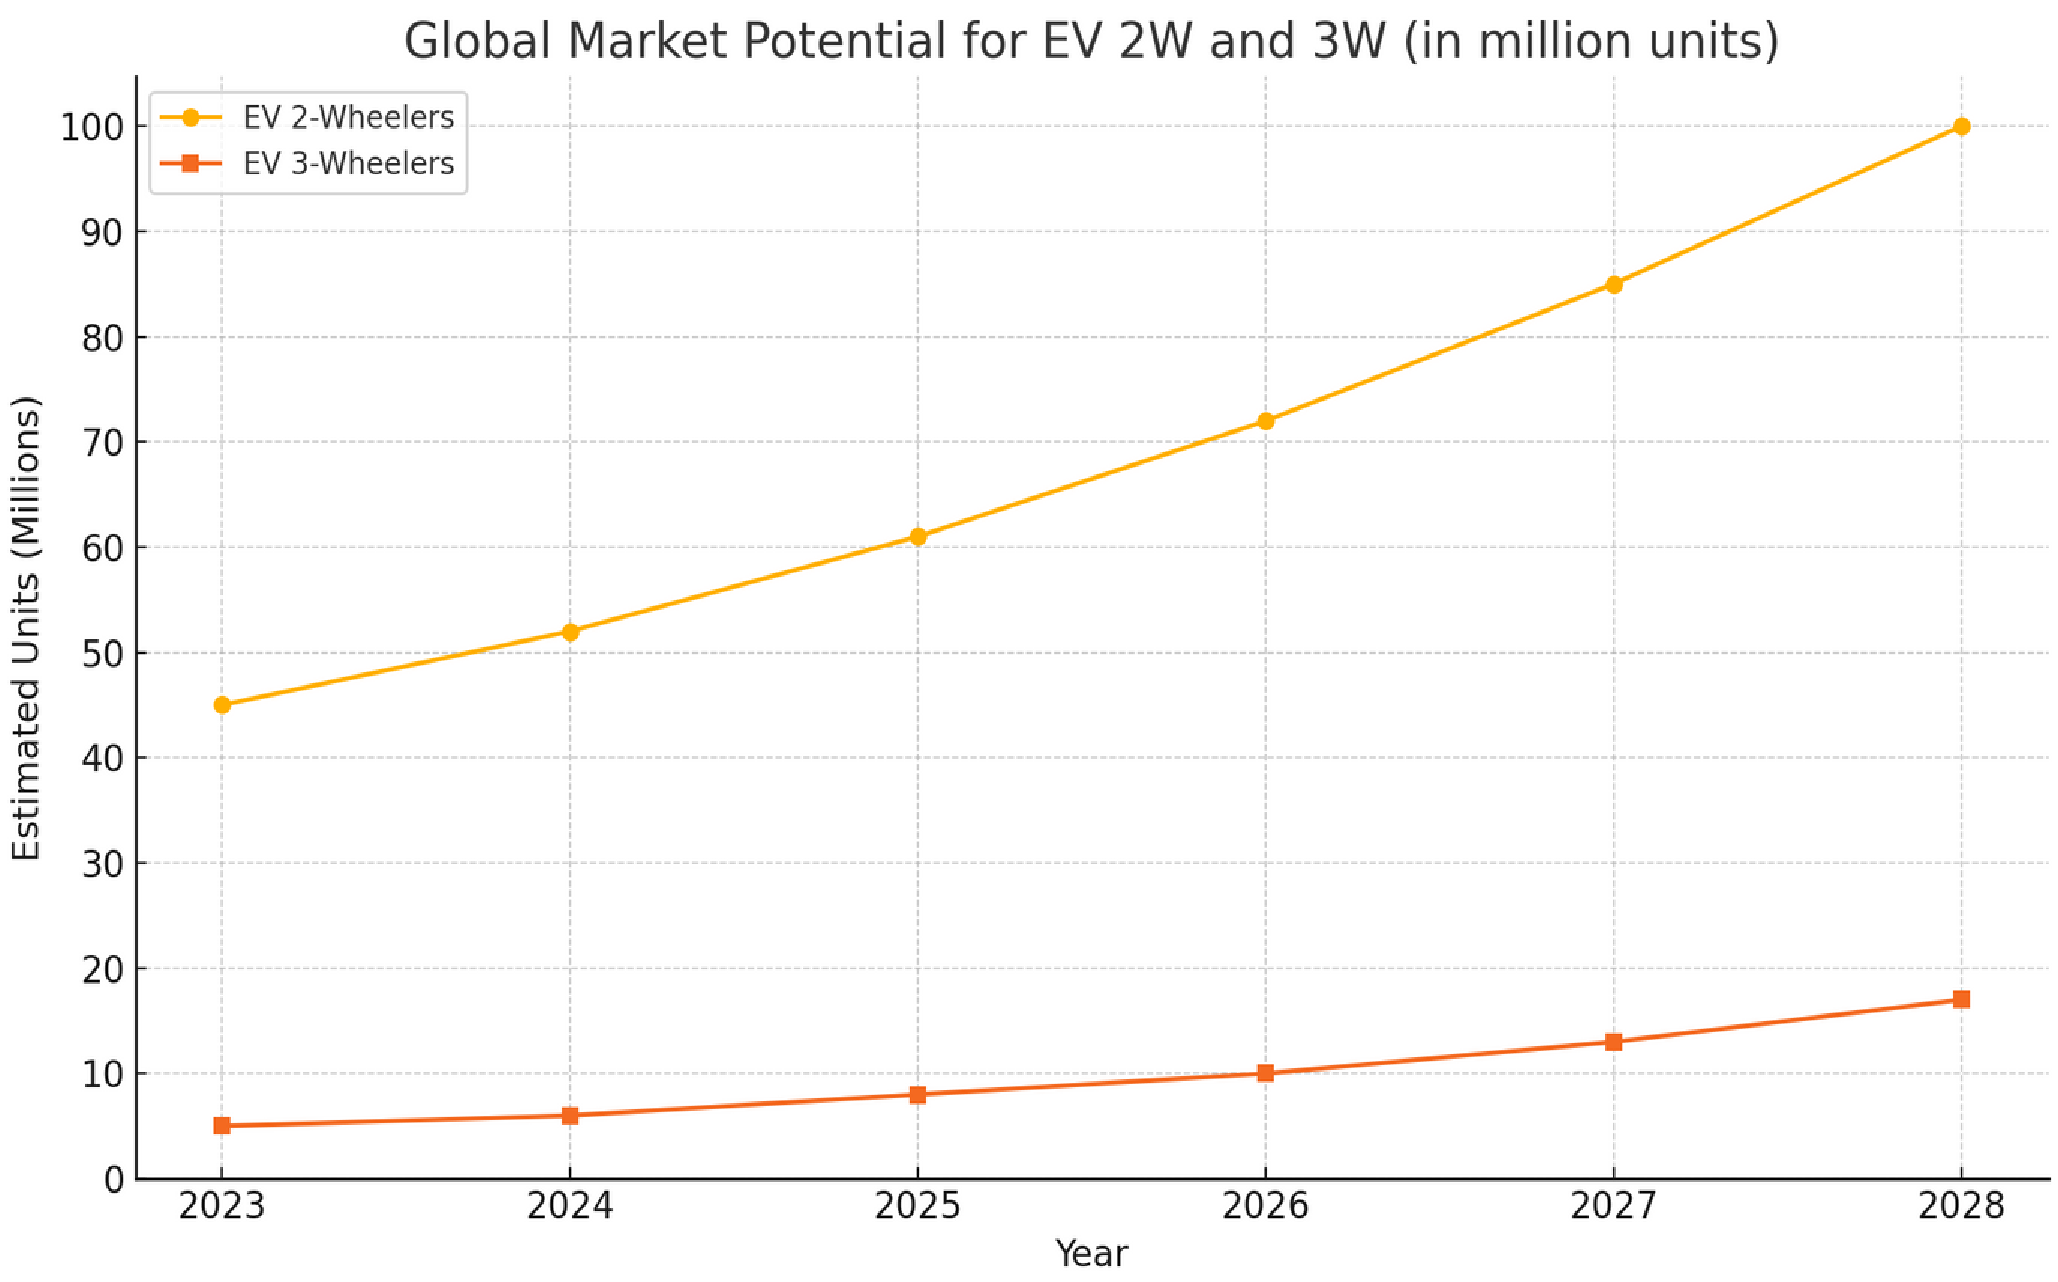
Global EV Market Overview

5%

With a global potential of 100 million units, CoMo targets a bold 5% market share

5 Mil Units

By 2030, CoMo aims to electrify 5 million vehicles worldwide — driving the future of sustainable mobility



Market Potential

Beyond our dominance in Indonesia, CoMo is actively expanding into high-potential international markets — positioning ourselves to replicate and scale our proven model across key emerging and strategic regions.

Country	Estimated Number of Motorcycles
Malaysia	Approx. 13 million
Thailand	Approx. 22 million
Philippines	Approx. 18 million
Vietnam	Approx. 45 million
Egypt	Approx. 3 million
Pakistan	Approx. 1.3 million
Nigeria	Approx. 5.1 million
Tanzania	Approx. 1.4 million
Kenya	Approx. 300,000
Ethiopia	Approx. 350,000
United Kingdom	Approx. 1.25 million
Brazil	Approx. 22 million
Argentina	Approx. 7 million
Poland	Approx. 1.8 million
Portugal	Approx. 1.2 million
Spain	Approx. 3.5 million
Italy	Approx. 6.5 million

Strategic Expansion Plan

2024
Market Entry

2025-2026
Strategic Expansion

Strategic acquisition - Asia, Africa, Europe and South America

2027-2028
Global Presence

Carbon credit vertical launch, strategic hub in KSA for EV and batteries

2029 - Beyond
Market Domination

Strive to be the leading EV mobility solution player for E2W and E3W segment globally with more than 500,000 fleet globally

CONTIGO MOBILITY

Core Market Indonesia

Massive B2B Shift, Strong Government Push — Indonesia Leads the EV Transition

Contract & Pipeline

CoMo main market with a signed contract value of over $107mil

$107MIL CONTRACT & PIPELINE VALUE

EV Adoption

Approximately 161,000 EV motorcycles are in use since 2019.

170K UNITS SINCE 2019

B2B Transition

Around 6 million motorcycles used by logistics, ride-hailing, and other B2B sectors are expected to transition to EVs.

6 MIL B2B CAPTIVE

Government Support

EV motorcycle subsidies have increased by over 400%, with targets of 2 million EVs by 2025 and 9 million by 2030.

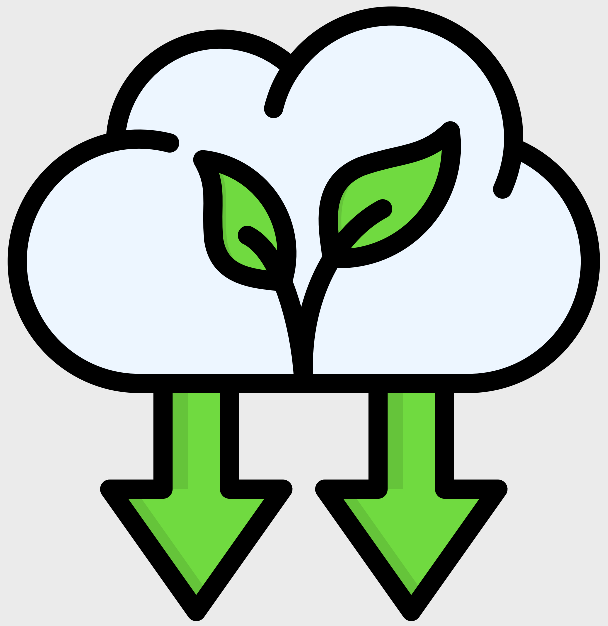
9 MIL Units 2030

Carbon Credit = Hidden Revenue Stream

Emission Savings from EV Fleet
- 1 EV = up to 3 tons CO_2 saved per year
- 50,000 EVs = 150,000 tons CO_2 saved

Monetized via Carbon Markets
- At $20/ton → $3M per year
- At $50/ton → $7.5M per year
- With 100,000 EVs? → $6M–$15M/year

How We Maximize It
- Add solar/wind charging = more credits
- Partner with emission-heavy industries (logistics, airlines, etc.)
- Long-term buyers = premium prices



Carbon credit is not just climate impact — it's real, scalable revenue.

With our growing EV fleet, CoMo is positioned to unlock $15M+ annually from carbon credit trading.

COMPANY VALUATION

Company valuation

CoMo had undergone an external valuation process and based on the current performance and contracts, the company is valued at $142million.

The target is for CoMo to reach unicorn status in 5 years time.

Low Bound

Advisory Board

Faisal Sultan

Faisal Sultan is CoMo Advisor and is currently the Managing Director of Lucid Middle East.

Iqbal Jumabhoy

Board Advisor at **CoMo** - Currently the CEO/Executive Director of ProsperCap Corporation Limited with 26+ years in hospitality (Rendezvous, SilverNeedle, Scotts) and real estate and ex-international banker. Founder of **Edge Capital.**

Zuhri Yusof

CEO of CoMo - brings more than 20 years of automotive experience. He has served as **PwC Head of Automotive** and also **CIO** for one of the automotive OEMs amongst his many career experiences.

Key positions:

CEO – Contigo Group – Lead the direction of Contigo Group to develop and expand the business in the E2W and E3W mobility industry
Executive Advisor – Endava – Advisory for automotive industry in Endava a public listed digital company
Head of Automotive – PwC Middle East – Leading the automotive practice in PwC
Executive Advisor – HICRON Automotive – Business advisory for automotive industry and supporting key customers such as ALJ. Daimler. Volkswagen, Skoda
Head of IT – Proton Malaysia
Head of PMO – Petronas (iPerintis)
PMO – Shell
Account Assistant – Emerson Network Powers

Education

Association of Chartered Certified Account
MBA – Global Marketing

Sudhir Abdul Rahman

CTO/COO of CoMo – in-depth Cross culture management skills with Regional & Global exposures, emphasis in Information Communication Technology (ICT) for over 40 years.

Key positions:

COO / CTO – Contigo Group, Driving the Operational and Technology activities
Enterprise Architect & PM, Dyson, new Global HQ office and Battery plant
MD – StarFusion (Singapore, Malaysia & Indonesia), IT solutions and services company
SVP Information services – SliverNeedle Hospitality, Hotel Chain in Australia, Thailand and Loas
CIO – **Lababidi Holdings** (Nigeria), Conglomerate with various business running in Central Africa
SVP Information Technology – Rendezvous Hospitality, Hotel chain in Singapore, Australia
Group Director – Group Information Services – EAC (THE EAST ASIATIC COMPANY A/S), a listed company in the Copenhagen Exchange
Communication Services Manager – DHL - Asia Pacific Information Services

Education

British Computer Society, BCS Part I (Higher Diploma)
The National Centre for Information Technology (UK)
City & Guilds of London Institute

Badrul Ghazali

24 years of corporate working experience with 15 years specifically in strategic planning and business development. Skilled in corporate performance management, business process analysis and financial modelling. Gained international exposure via work on export sales, business expansion into new global markets, collaboration/joint ventures with global MNCs and various consulting projects..

Key positions:

CSO – Contigo Group – Lead in strategy of Contigo Group, support the development and expansion the business in the E2W and E3W mobility industry
Head of Global Business Development – HFR Inc – Lead in new market expansion, and sales in ASEAN.
CEO - KUB TELEKOMUNIKASI – Overall leadership and management of a telco engineering services company
Head of Strategy – KUB Malaysia – Lead in strategy formulation and subsidiary performance monitoring.
CEO - COMOS – Overall leadership and management of an electric vehicle car-sharing startup.
CSO - Proton – Lead in strategy development, performance monitoring, and corporate development activities such as JV, collaboration with other global OEMs.

Education

BE and PhD in Mechanical Engineering, University of Adelaide, South Australia.

Anggit Subagyo

Country Manager of CoMo. More than 10 years of experience as project management expert in various technology industry & strong knowledge of the local market and overlooking the operations.

Key positions:

Country Manager – Contigo Indonesia, Executing EV fleet strategy and national rollout plan.
Director – IDTech Solusi Mandiri, IT Hardware for B2G (Data Center & Audio Visual), initiate to build Internet Infrastructure to digitalize village in more than 300 rural area in Indonesia, lead for Backup storage DRC for ASEAN Secretariat (Indonesia & Singapore)
General Manager – Indohotels Booking System, Channel Management & Payment Gateway system services provider for more than 100 hotels around Indonesia
Head of Product – Hexaon Business Mitrasindo, Core Banking System, lead EFT Switch project for Bank Mandiri Syariah (Now Bank Syariah Indonesia) & BJB Syariah Bank, lead to managed 20,000 ATM Networks around Indonesia for Mandiri Bank, lead for Business Continuity Management project for BTN Bank

Education

BS - Computer System at Telkom University (Indonesia)

Faliq Sudhir

Supply Chain Director of CoMo. Specializes in business structuring, strategic M&A, logistics and supply chain with over 15 years of experience across different industries and across different geographical locations.

Key positions:

Supply Chain Director, Contigo Indonesia – Optimizing the end-to-end supply chain to achieve strategic business objectives while mitigating risks

Managing Director, PT Tharwah Crestar Indonesia – Directed nationwide distribution of FMCG products across Indonesia

Managing Director, Initiis International – Lead strategic M&A, business structuring and regional hard and soft commodities across Southeast Asia

Business Development Team Leader, StarFusion Pte Ltd– IT solutions and services company across Singapore, Malaysia and Indonesia

Education

Nitec in Mechatronics Engineering (Singapore)

Hadi Zamri

Passionate delivery lead over 20 years of deep expertise in low carbon mobility, fleet management, and omnichannel commerce, cultivated through diverse delivery roles with Fortune 500 companies.

Key positions:

Lead Product Manager, Contigo Mobility - Own the product vision and roadmap for shared digital platforms deployed across multiple business units and geographies, driving alignment, scalability, and transformation at enterprise scale.

Product Manager - Low Carbon Mobility, bp – Led the roll-out of the low carbon alternative fuel across strategic EU retail sites as technology lead

Delivery Lead - Fleet Customer Programme, bp – Led service and product enrichment initiatives for BP Fleet's sales enablement portfolio across Europe, Australia, and New Zealand — driving enhanced functionality, user experience, and strategic alignment.

IT Product Manager – Retail & Data Analytics, Shell – Owned the product vision, development backlog, and intake of new demand for Shell's global retail data platform — a mission critical solution delivering actionable insights for business decisions and powering data-driven downstream applications.

Senior Product Manager – E-commerce, Celcom Planet - Played a pivotal role as one of the early employees in building 11street.my's B2C, B2B, and B2B2C online marketplace — scaling it into Malaysia's second-largest marketplace by GMV within just over one year.

Education

MBA – Entrepreneurship and Innovation, Queen Mary University of London, UK

BS - Computer and Systems Engineering, Rensselaer Polytechnic Institute, USA

Emilia Tubielewicz

Investor Relations Director - 25 years of manpower and trading experience. She has worked with EU trading companies and as international contacts manager. Hydrogen technology fan and automotive green solution enthusiast.

Key positions:

CEO – Contigo SP. zoo in Poland– Lead the direction of Contigo in Poland to develop and expand the business in the E2W and E3W mobility industry

Investor Relations Director in Como Group – bringing connections and investments

CEO Arrow Services – provider of IT services and business advisory

Trading manager in Beztona Danmark and Eastfurn -Scandinavian market sale manager, production supervisor

Education

Uniwersytet Wrocławski- MA – English Applied Linguistics

World knowledge University – masters in applied common sense and technology progress
