

Flying Monkeys

Look outside my window
At the fluttering trees
The sky looks different
Like a scary movie
I'm wiping my eyes
With the back of my hand
Could I be sleeping
I just don't understand

I open my door
I let the fear rush in
Alien and disrupting
That's how it begins
Tower stands before me
A reminder of time
Killing for the rebirth
A return to the crime

Flying Monkeys spread your wings and fly
I see your future in the burning sky
A flaming rebirth like the Phoenix Bird
It's dying cries is all I heard

Scared to see the reason
I'm stressed out and alone
Living in a lockdown
With my telephone
No one to annoy me
Just what's in my head
Voices just keep talking
When well enough is said

Stepped into the moonlight
Smacked by smelly air
Can you smell the difference
Do you really care
This is not my homeroom
This is not my school
I'm a flying monkey
I'm breaking the rules

Flying Monkeys spread your wings and fly
I see your future in the burning sky
A flaming rebirth like the Phoenix Bird
It's dying cries is all I heard

Things around me scare me
I'm afraid of the news
No it isn't Star Trek
I'm afraid of the "Q"
Zombies they keep rising
It's the call of the man
While they keep believing
Darkness spreads through the land

We're searching for love
In this time of the flu
We're hiding our faces
Who are you have no clue
I' feeling so cornered
I feel I have to run
I'm flapping my wings
As I fly to the sun

Flying Monkeys spread your wings and fly
I see your future in the burning sky
A flaming rebirth like the Phoenix Bird
It's dying cries is all I heard
