

## Lover's Suicide

I'm on the  
-- Wrong side of the platform  
All the trains have passed me by  
I'm facing downtown  
They're running uptown  
Is there a right side?  
Where am I?

You're in the  
--Dark part of your city  
And your dreams are fading slow  
Don't know they've lost you  
What did it cost you  
To walk in shadows  
Your light turned low

When you take that uptown train  
Seems I'm heading down  
When I walk your faded streets  
Feel like I could drown

You want me to light your way  
And I want you to ride  
Seems we've lost that place to meet  
It's lover's suicide

We wanted  
--One piece of each other  
But we couldn't let it go  
If I could give you  
If you could live me  
We'd stay together  
And let it flow

But now I  
--Can't find my way over  
And you won't ride in my car  
Let's get it ended  
It can't be mended  
We know its over  
Let it go

When you take that uptown train  
Seems I'm heading down  
When I walk your faded streets  
Feel like I could drown

You want me to light your way  
And I want you to ride  
Seems we've lost that place to meet  
It's lover's suicide

No hope of  
    resurrection  
This is my  
    insurrection  
Thought we had  
    a connection  
It was just  
    an infection

I took the  
    wrong direction  
You made the  
    wrong selection  
This love was  
    slow deception  
Make way for  
    my rejection
