

## Oh My God - Sweaty Palms!

Oh my god sweaty palms  
Take my breath away  
Don't know what to say  
I know I'm not okay

Oh my god sweaty palms  
Changes in the sky  
How I want to cry  
Wishing I can fly

All alone in the night  
It's such a mystery  
Why I think of you  
Why can't I be free

I barely know your name  
Some basic things exchanged  
Never saw your face  
Lunar solar change

Oh my god sweaty palms  
Take my breath away  
Don't know what to say  
I know I'm not okay

Oh my god sweaty palms  
Changes in the sky  
How I want to cry  
Wishing I can fly

Enchanted by the thoughts  
Of what can someday be  
Is it make believe  
See it feel and breathe

I'm brought back down to earth  
I'm waking from this dream  
Wasn't here it seems  
That there was a scene

Oh my god sweaty palms  
Take my breath away  
Don't know what to say  
I know I'm not okay

Oh my god sweaty palms  
Changes in the sky  
How I want to cry  
Wishing I can fly
