

Planet 186

My sister told me  
That she's not from here  
From a world in space  
Far but very near

People are nice there  
Don't shoot or stab or kill  
Always love to love  
Cause they have free will

She said:  
I'm a traveler to your world  
In that moment I was the girl  
Know someday I will return  
But not now - I'm having too much fun

My sister told me  
There's too much stress  
People so hateful  
Such a social mess

The world that I'm from  
People have no bills  
Always laugh and sing  
No need to take pills

She said:  
Saw my calling from an MRI  
In that moment I thought I'd died  
Knew someday I will return  
But not now - I'm having too much fun

My sister told me  
Never have to fear  
New age is coming  
Shoosh and you will hear

Numbers are changing  
Nine is now a prime  
Heavens are waking  
No one waits in line

She said:  
Saw my numbers floating in the sky  
Was so happy that I could cry  
That someday I won't wait in line  
But not now - having too much fun

She's from - Planet 186  
She's from - Planet 186  
She's from - Planet 186
