

Rebel Moon

I don't know just how it went?
There's no smell, there is no scent

The first time I heard her voice
You tell me there is no choice?

A blockade, can't penetrate
Simple mind against the gate

Will she open - I don't know
Rebel moon just wants to know

Libra Venus loves to love
Saturn seems to wear the glove?

In the garden she hides her love
The food shines from up above

Will the seeds provide the growth?
Will the flowers make an oath?

Rebel Moon - I want to know
Aries Moon - in fire grows
Have no patience - not my thing
Libra heart may flap its' wings

Shared water - I cannot swim
Riding seas out on a limb

Think my ship is out in space
All the water was replaced
Feeling Patterns long ago
Will it crash or Will it grow?

Stars tell me all this can work
Why I feel just like a jerk

Can I wait - she's not like me
Will karmic ties set me free

Rebel Moon - I want to know
Aries Moon - in fire grows
Have no patience - not my thing
Libra heart may flap its' wings
