

Stuck In The City

Left my car in the corner
Of the ghetto
Not the safest part of town
Just to hang with the coolest
Of the people
Was no time to look around

Stuck in the city
With no way out
Stuck in the city
Please let me out

Two big fellas towed my car
To the west side
It's the farthest part of town
The building dressed in shadows
In the moonlight
Trying not to make a sound

The streets are cold and ugly
When you're frightened
A nightmare or so it seems
Don't know where is the subway
I've forgotten
Think I'm lost inside this dream

Stuck in the city
With no way out
Stuck in the city
Please let me out

See my life in the crossroads
Of Survival
What to do when you're burnt out

See no light when your living
In the shadows
That is life when lived in doubt

Run, run, run is a pattern
I'm escaping
Always blocked by broken streets
It's no fun when you're hiding
From the demons
All I hear is my heart beat

The streets are cold and ugly
When you're frightened
A nightmare or so it seems
Don't know where's the subway
I've forgotten
Think I'm lost inside this dream

Stuck in the city
With no way out
Stuck in the city
Please let me out
Stuck in the city
With no way out
Stuck in the city
Please let me out
