
Technology & Innovation

Introduction:

This survey helps us design strategies that foster growth and innovation for your business in the technology space.

Strategic Questions:

1. What are your primary growth objectives for the next 1–2 years?
 2. Have you implemented any AI, analytics, or other emerging technologies? If so, describe their impact.
 3. Are you developing new products or services? What challenges are you encountering?
 4. How does your organization stay ahead of market trends and competitors?
 5. What are the main obstacles to achieving your goals (e.g., talent gaps, technology limitations)?
 6. Where would you prioritize investment for innovation (e.g., software, training, marketing)?
