Top Grain Bin Safety Tips

1. Lockout Unloading equipment before entering
2. Do not enter bins alone or without an observer
3. Wear a safety harness and secure a lifeline
4. Wear a dust mask or respirator
5. Attempt to break up grain without entering bins
6. Avoid loose-fitting or torn clothing while working with equipment
7. Take your time and use common sense

FarmSafety-Minibike

Top 10 Farm Safety Tips

1. Don't allow extra riders on farm equipment
2. Take necessary steps to prevent suffocation or entrapment inside grain bins
3. Prohibit children from playing on idle equipment
4. Know the location of children prior to operating machinery
5. Disengage power takeoff when not in use
6. Keep manufacturer's guards and shields in place
7. Equip farm tractors and self-propelled machinery with rollover protection
8. Display slow-moving vehicle signs on farm equipment
9. Install barriers for manure pits, wells, cisterns, and ponds
10. Store chemicals, pesticides, and herbicides in secure areas. Follow manufacturer's handling directions carefully
