

## **LPOA Board of Directors Candidate Bios (Provided by Candidates):**

**Chris Carr** – My wife & I have lived in Lake View on Catfish Lake over 10 years. We also have a cabin on Lake Retreat, so I feel we are pretty vested in the community. I'd like to volunteer to the LPOA with a focus on safety, cleanliness and within budget. I consider myself fiscally conservative and socially compassionate. I support pond & lake management and developing parks and amenities to improve our quality of life. Please suggest your neighbors to join LPOA, volunteer for Spring Clean-Up and attend our quarterly public meetings. Thanks for your consideration and let's have fun! Regards, Chris Carr.

**Terina Myers** – My husband and I moved to Lake View in 2015 before welcoming our first child. With me working at UAB and my husband at Mercedes, Lake View made the perfect place for our family to settle. Quickly, we fell in love with the area as well as the people. We are members of Lake View Baptist Church and are excited about raising our children in such a wonderful community. I would love to help serve the LPOA in maintaining our parks and lakes as well as advancing our community for future generations. Best Terina Myers.

**Cindy Nelson** – My family moved to the area when it was called Million Dollar Lakes. The swimming area was located at the lake that now has the park designated as Scout Park. The ski lake development was a dream. My father was one of about 5-6 men who sued (and won) the owners of the subdivision so that property owners would have control over their own domain instead of the "association." The result of the suit was the beginning of Lake View. My family was also involved in establishing and the actual building of the Lake View Fire Hall/Department.

I am married and have three daughters. I've been blessed to have grandchildren and great grandchildren. I am truly lucky in that my father is still living and we have a living five generation. I have recently retired from working in public school with special education. Despite retirement I continue to be the Coordinator for organizing the annual "Unlocking the Mystery of Developmental Disabilities Conference" series that is held in Birmingham each fall. Most weekends I, along with the kids/grands/etc will be found on the jet ski running up and down the ski lake. I believe every child has either ridden on the jet ski or behind on the towable. How many times have I heard "you can't throw me off."

I'm interested in serving on the LPOA with the hopes of helping to build up the community.

**Max Pickens** – I moved here from Hueytown in 2013 to live next door to my Grandchildren. I have served as treasurer for the LPOA for three years. I retired in 2020 from the Finance business after 32 years. Our biggest challenge is to increase membership to provide more funds for improvements to the community.
