

BATTERY-BASED ELECTRIC POWER UNIT

Engine off. Everything on.

IdleLogic™ runs your A/C, heat, and hotel loads on battery power — dead silent, zero diesel burned overnight. Drivers rest better. Your fuel bill shrinks from month one.

\$53,000

Kept over 5 years vs. letting the truck idle

\$750–900

Fuel savings every month, per truck

0 dB

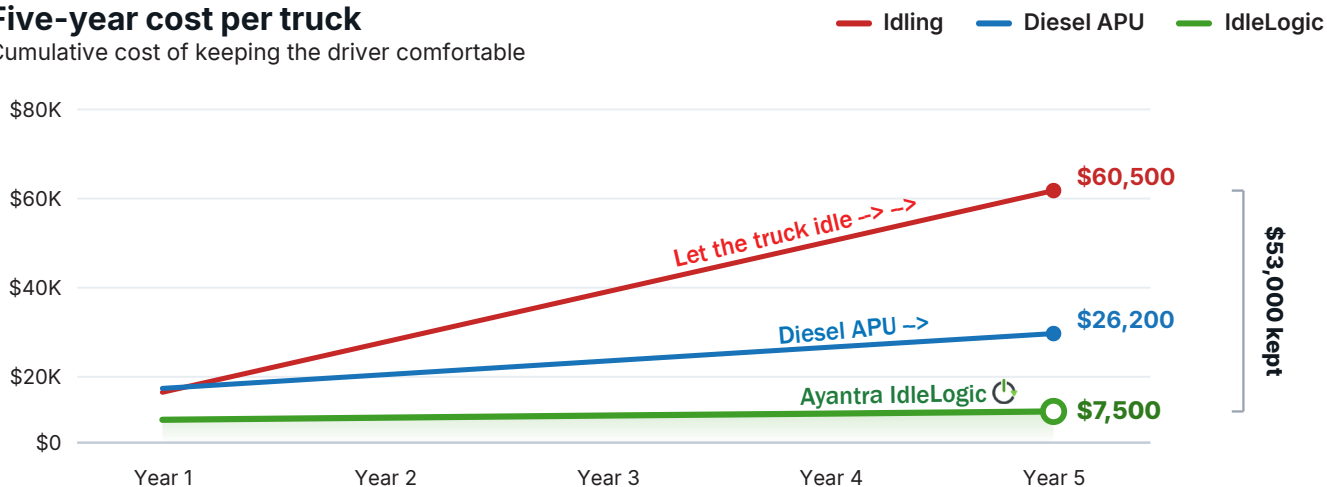

Completely silent — real sleep in the bunk

15 hrs

Run time on a full charge (Pro)

Five-year cost per truck

Cumulative cost of keeping the driver comfortable

DESIGNED & ASSEMBLED
IN THE U.S.A.

CHOOSE YOUR UNIT

Lite for the owner-operator. Pro for the fleet.

Same silent comfort in the cab. Pro adds bigger batteries, hotel loads, cell connectivity, and savings reports on every truck.
