40kW Solar PV system plus 60kWH Tesla Powerwall Battery Backup

- Location: Sewall's Point FL
- Installed: 2018
- Contact: Howard P.
- 772.403.4177

65kW Solar PV system with full Homegrid Battery Backup

- Location: Admirals Cove, Jupiter
- Installed: 2022
- Contact: Alfred B.
- Phone: Upon Request

38kW Solar PV system with 30kWH Tesla Powerwall Battery Backup

- Location: Palm City, FL
- Installed: 2018
- Contact: Rich G.
- Phone: 239.989.6712

50kW Solar PV system on
main and guest house
(Guest house not pictured)

- Location: Jensen Beach FL
- Installed: 2016
- Contact: Michael S.
- Phone: Upon Request

50kW Solar PV system with 60kWH Tesla Powerwall Battery Backup

- Location: Pennock Point - Jupiter FL
- Installed: 2020
- Contact: Debbie H.
- Phone: Upon Request

60 kW Solar PV system

- Location: Jupiter Hills Golf & Country Club
- Installed: 2017
- Contact: 18205 SE Village Circle, Jupiter FL 33469
- Phone: Upon Request

110kW Solar PV system

- Location: Jupiter Park of Commerce
- Installed: 2015
- Contact: Upon Request
- Phone: Upon Request

30 kW Solar PV system

- Location: Sewall's Point FL
- Installed: 2021
- Contact: Mark P.
- Phone: Upon Request

25 kW Solar PV system

- Location: Sarasota FL
- Installed: 2013
- Contact: Sold home
- Phone: N/A

About us: Proven Track Record

Sailfish Solar is a leading solar developer in the State of Florida and manages a team of engineers and installers with the highest possible standards on every installation. Relying on his 15 years of experience in the solar industry, our principal, Mike Antheil expertly guides the solar design, installation and financing process from beginning to end. Mike serves on several boards of Florida and US based non-profits dedicated to the responsible advancement of renewable energy in the United State

About us: Highest Possible Equipment Standards

Solar panels in Florida, particularly in high velocity wind zones, require solar installations to adhere to the highest possible equipment standards, in addition to local permitting and code requirement expertise. Our engineering team has designed hundreds of solar systems in High Velocity Wind Zones with adherence to weather, wind, and conversion efficiency minimum standards.

About us: Custom Approach

We believe that when it comes to designing and installing an integrated residential solar PV system, one size does not fit all. We custom tailor every system to best fit our customers' homes, lifestyles and savings goals. Our energy consultants will work with you to determine the best fit technology, system size, and financing offerings for your needs.

About us:

Our Principal

Mike Antheil is the founder of Sailfish Solar and Managing Director of Energy Finance Group LLC, with over 16 years in the solar industry.

- With expertise in solar development, financing, and government & regulatory policy, Mike has been a pivotal leader in the growth of a comprehensive solar PV marketplace in Florida.
- Throughout his career, Mike has led statewide solar initiatives as both President and Executive Director of the Florida Solar Energy Industries Association (FlaSEIA), President and Executive Director of the Florida Alliance for Renewable Energy (FARE), co-founder of Floridians for Solar Choice (FSC) and currently co-founder and Executive Vice President of the Florida Solar & Storage Association (FSSA).
- Between 2007 and 2015, Mike financed more than 500mW (megawatts) of solar projects in the Northeast and Western United States while focusing on EPC project development in the Southeast U.S. In 2015, Mike shifted his focus to residential solar development in South Florida and the Treasure Coast. In 2018, Mike expanded to serve the entire residential market in Florida. Today, Sailfish Solar, is the most trusted local brand with an obsessive focus on customer experience, quality, and transparency.

During his career in the solar industry, Mike has played a key role in the development and protection of the industry in Florida. Career highlights include:

- Creation & passage of the Florida Net Metering Act, signed in to law in 2008 and enacted by the Florida Public Service Commission in 2009
- Florida Solar Homeowner Rights Act, signed in to law in 2010
- Residential Tax Abatement - 2007
- Commercial Tax Abatement - 2016
- 2016 Ballot initiative to allow for 3rd Party Power Purchase Agreements
- PACE financing to allow for widespread access to solar finance.

Other notable previous Board roles:

- AMI Kids
- Alliance for Renewable Energy – Florida Committee
- Southern Alliance for Clean Energy State Advisory Team
- Sport Fishing and Boating Partnership Council Florida State Advisory Committee
- Ocean Energy Alliance Advisory Committee

Mike lives in Stuart, Florida, with his wife and three kids. He is also an active member of the Martin County community as a board member of the Martin County Parks and Recreation Advisory Board, the Martin County North Little League, and the Sewall's Point Code Enforcement Board.
