

ROTARY RIG EXCLUSION ZONE

 **Red Zone:** Keep out of this area at all times – 2m to the sides and rear of the rig for all personnel apart from authorised persons (lead driller / second man) and 4m to the front of the mast. When tracking increase the exclusion.

 **Green Zone:** Always signal 'Thumbs up' and receive a response before entering. Lead driller to make safe prior to allowing personnel to enter the area.

NOTE: Drill rig induction must also have been undertaken before being allowed in the exclusion zone irrespective if work is being conducted or not.
