Welcome Crusader!

You have chosen to be involved in a movement that can change your life. The world is full of unknowns, our future is under attack everyday. Our lives are at the mercy of something or someone else. Lay offs, cut in pay, cut in hours, raises that do not equal inflation and unemployment are just a few of the things that threaten our way of life. I was just like you, I was sick and tired of being sick and tired. I hated the fact that there was still month left at the end of the money. I decided to take control of the situation, not be controlled by the situation.

Our CRUSADE is to champion the cause of middle America. We give people a chance to take control of their finances without any association fees involved. Our MISSION is to help families get properly protected, debt free and retire in dignity.

We do this one family at a time, in the privacy of their home. We never charge an appointment/sitting fee, we never expect anyone to buy anything. We assist them on getting back on track towards their retirement goals. We also give them the opportunity to go into business for themselves but not by themselves. We Reimburse the starting fee to be involved with New Power Generation and we assist them in getting properly licensed in their state of residence. Our Training reimbursement plan allows you to get trained how to do the business while you are getting licensed. After you have completed licensing and the training program, we **reimburse** you ALL the fee's that were paid in getting the state licenses.

Our goal is to help people take control of their future without being owned by someone or something.

We are proud to have you as one of our Crusaders and we are honored that you have chosen New Power Generation Inc to assist you in retaking control of your future. You will be receiving an introductory packet that will assist you in getting started. The most important thing for you to do right now is start the licensing requirements in your state, please meet with your Regional Vice President for instructions.

Once again, Welcome Crusader!
