COMPENSATION BREAKDOWN

New Power Generation Inc. is a financial education company and doesn't own a life insurance company. As a direct marketer of life insurance and other financial products, we get paid a percentage of the annual premiums charged. New Power Generation Inc. has marketing agreements with various companies at different rates. Our direct agency carriers pay New Power Generation Inc. at a 95% rate, our NPG/SureLC companies (everyone else) pay New Power Generation Inc. a 90% rate. Our agreements have no effect on your compensation, you still receive your rate based on a 12 month (annual) premium. Example, cost of insurance is \$50 a month for a 20yr fidelity hybrid term policy. You are a Regional Director (RD), $50 \times 12 = 600 \times .60 = 360$. All compensation is paid as soon as the policy is delivered and signed for & the first payment for the policy has been received. Direct Deposit/Zelle is recommended to receive compensation. New Power Generation Inc. pays as soon as money is paid to the company.
