When only the best is good enough

Welcome to our 20th Anniversary issue – we are so proud to present this special edition of our catalogue to you.

Looking back at the past 20 years, and the development within the hair alternatives available, so many fantastic things have happened. Our journey started back in 2003, in a cosy basement in Aarhus, with a small production of beautiful silk scarves for women. Scarves made for women who needed something to wear during their cancer treatment. Back then comfortable and stylish headwear was hard to find, so our heartfelt mission was that headwear should be for everyone, and no woman should be left feeling like she'd lost both her hair and femininity to cancer, alopecia or due to lack of hair alternatives.

Today this continues to be our primary mission and we still strive to support women with feminine, comfortable, and stylish, high-quality hair alternatives giving them the opportunity to make life their own kind of wonderful.

Thank you for being part of our 20-year journey, we are grateful to have you here and value your trust, friendship, and the time you spend looking through our fine headwear universe.

The spring/summer season is packed with wonderful headwear colours, prints, gorgeous location pictures and a new supermodel so amazing and smart that we find it hard to hide our excitement! Give a warm welcome to our beautiful Friends of Christine ambassador, Pamela, whom we met up with in Italy for pasta, pizza, laughs and chats and, a glamorous photo shoot. Pamela is this seasons guest star and with her delightful and bubbly personality she brings both joy and true glitter to this special 20th anniversary issue - and we are fans!

With all this we embark on yet another era, with you alongside us.

Thank you, Friends of Christine

Hi, I'm Pamela

My alopecia journey started 6 years ago after I had my second child. I never expected the hair loss I experienced would result in me having a bald head and it was hard for me to accept the change.

During my up and down journey, I worked hard to accept my hair loss, but now I have found a way to love myself just as I am and a new way to style my beautiful bald head.

Turbans and scarves gives me so many styling opportunities and it adds charm and mystery to my personality – this I never had in my “hair life”.

Alopecia changed my style, my head, and my soul in a positive way and for me it's not the hair style on top of your head that matters, but what's inside it!

Today I'm an ambassador for House of Christine and I love to interpret the turban lifestyle in my own way. I also like being able to inspire others to try new stylings and to embrace this new version of themselves.

Love, Pamela

CHRISTINE HEADWEAR bamboo collection

The bamboo-viscose products from Christine Headwear are made in the unique and functional Caretech® Bamboo quality.

Bamboo-viscose fabric has many fantastic features and the soft and comfortable quality is actually used to form the largest part of the Christine Headwear product range.

The Caretech® Bamboo is supremely soft, silky and luxurious to the touch. It is breathable and thermo-regulating so you remain comfortable and dry during both summer and winter temperatures. The fabric is more moisture absorbent than cotton and quickly removes the moisture from the skin and releases it.

Further, the eco-friendly Caretech® Bamboo products are extremely gentle to wear and highly suitable to use against sensitive skin.

CHRISTINE HEADWEAR accessory line

Find the small yet important necessities in the Christine Headwear accessory collection. A range of carefully constructed wigliners, tops, night caps etc. - all made in soft, comfortable and intelligent materials for your wellbeing.

Look out for the smart and cleverly constructed Soft Lift Hat, that will give the back of the bare head a beautiful gentle lift under your head coverings. Another one not to miss is the Christine underwear top with the revolutionary 37.5® Technology, constructed so you can easily put it on even if raising your arms can be a struggle.

Sometimes the little necessities makes the biggest difference.

CHRISTINE HEADWEAR underwear collection

The Christine underwear top is a unique and comfortable underwear piece developed with both intelligent features and materials.

Comfort in clothing, underwear in particular, is often dictated by your body temperature. It can, however, be difficult to maintain a balance at 37.5-degrees when our body goes through changes, either due to surgery, treatment for critical illnesses or when suffering from alopecia.

It can be hard to control the hot and cold flushes that makes us so uncomfortable, but this top will help you! The 37.5® Technology used in the fabric material helps control your core temperature, regulates it and will keep you in the optimal 37.5-degree comfort zone at all times.

For further comfort and convenience, we've constructed the top so you can get dressed without having to pull it over your head, which can be difficult when having gone through a breast or under arm surgery. The neck line is beautifully placed and has an elegant and feminine silky satin trim.

A truly comfortable and practical top made particularly for your wellbeing.

CHRISTINE HEADWEAR soft lift hat

The Soft Lift Hat from Christine Headwear is a revolutionary design protected headwear piece, which will provide the perfect fit and lift under your wigs and headwear.

A small hat that will make a big difference to the look and feel of your head coverings, as it gently lifts and adds a fine, natural volume to the back of the head. The soft, breathable and light 37.5® fabric material will ensure you stay comfortable as it helps the covered area maintain an optimal 37.5-degree temperature - regardless of how you choose to cover it.

To make this clever little lift, a light mesh pad has been insertet under a soft top layer. This will add a beautiful rounded shape to the back of your head whilst leaving you comfortable, feeling nothing but carefully and gently protected.

The results are nothing but fantastic and you'll find your headwear and wigs will get a brand new, fine and elegant look to it.

The Christine products are CE labelled, which means they classify as medical devices according to EU Directive (MDR 2017/745) concerning medical devices. By definition of the EU Directive a medical device is a material intended to be used by women for the purpose of protection of the skin against the heat, sun and the cold. Further, it is intended to relieve physical and mental discomfort resulting from hair loss as well as a general protection of women, who have lost their hair due to chemotherapy and other hair related illnesses. In addition, the CE mark is your guarantee that the products are appropriate and safe to use and wear.

We recommend handwashing your new headwear and laying it flat to dry. Do not tumble dry.

This catalogue is printed on FSC and Nordic Ecolabel certified paper.

37.5® TECHNOLOGY

Comfort in clothing is dictated by our temperature and the humidity next to our skin, known as our microclimate. When our microclimate balances at 37.5% relative humidity and our core temperature balances at 37.5 degrees, we are in the optimal comfort zone.

37.5® Technology headwear and clothing helps control the core temperature by accelerating the movement of moisture vapour before it can turn to liquid sweat.

If we get warm and damp, the 37.5® products will dry faster – up to 5 times faster than a similar product without 37.5® Technology. And, when moisture is removed from our headwear and clothing, we stay warmer when it's cold and cooler when it's warm.

The active particles used in 37.5® are derived from natural sources such as coconut shells and volcanic minerals. A combination of these special sources and the product features makes this a rather unique and intelligent headwear and clothing line.
