MARIA C. RASNER

PROFESSIONAL SUMMARY

Proven leadership in cybersecurity and access management. Co-authored a book on Privileged Access Management, published August 2025. Completed Google Gemini and Stanford ML training, enhancing expertise in AI and ML. Recognized at Truist Financial Corp for excellence in project completion and customer service. Published two articles on cloud security and served as a speaker at IAM conferences, specializing in IAM Operations and Cloud IAM Security.

EXPERIENCE

VP, Cybersecurity IAM, 01/2024 - Current
TRUIST - Washington, DC

- Delivered internal managed security services through effective coordination and escalation.
- Developed and executed remediation and corrective action plans for technology risk management.
- Ensured adherence to SLAs and KPIs by addressing unmet commitments to stakeholders.
- Served as 'IAM fixer' for intake requests, aligning with responsible teams.
- Monitored customer satisfaction and performance metrics to identify areas for improvement.
- Coached team members to ensure documentation of processes and adherence to best practices.
- Developed and implemented policies to enhance operational efficiency across departments.
- Collaborated with cross-functional teams to drive project execution and deliver results.

AVP, Cybersecurity IAM, 10/2020 - 01/2024
BB&T - Raleigh, North Carolina

- Secured privileged access on premises via CyberArk and in cloud using Azure AD and AWS Identity Access.
- Led team of analysts in human and non-human account remediation initiatives.
- Collaborated with various cyber disciplines to enhance Cloud Maturity Level.
- Facilitated training sessions to enhance staff skills and improve team efficiency.
- Implemented process improvements to streamline operations and increase productivity.

IAM Engineer, Cybersecurity, 03/2020 - 10/2020
BB&T - Raleigh, North Carolina
