December 2023

Attention Autism is an intervention we use daily to support our children to be able to focus.
It has 4 stages.

For more information or a modelled session please email us at edison@discoverymat.co.uk.

Stage 1: Attention bucket (to focus attention)

Stage 2: Attention builder (to sustain attention)

Stage 3: Interactive game (to shift attention)

Stage 4: Individual activities (to focus and sustain attention in a group, then transition shifting attention to individual activity and then refocus on the group)

Merry Christmas from Edison

Website recommendation: <https://goblin.tools/>

A great website for breaking down larger tasks into manageable steps.

We have now supported over 65 settings in the Plymouth area.
