Our TV remote controls have just a few, intuitive buttons. Our bathrooms have spacious showers, with simple-to-use controls. They also feature anti-fog mirrors and heated floors, and our toiletries are clearly labeled and feature flip-top caps. US power outlets and USB ports in staterooms are plentiful and conveniently located, offering a variety of choices to charge devices within reach. ## WHY VIKING IS A BETTER VALUE

*How do we do it?*

- Our award-winning fleet is the largest in the river cruise industry, by far. This means we have considerable economies of scale in the building of vessels and the purchasing of goods and services for ongoing operations. We also own and operate our ships and the best docking locations on the rivers of Europe.
- We have a fleet of Viking Longships with a patented design. Our ships feature three full decks in the front—maximizing space on board that otherwise goes unused on many competitor ships. Therefore, we are able to accommodate more guests with the same operating costs and pass that benefit on to our guests, in the form of lower prices. Viking Longships also feature asymmetric corridors, which has allowed us to create true two-room suites.

VIKING LONGSHIPS ARE DESIGNED TO MEET THE HIGHEST ENVIRONMENTAL STANDARDS

## ENVIRONMENTALLY CONSIDERATE

*Reducing impact through design & technology*

**ALL VIKING LONGSHIPS** are powered by true diesel-electric hybrid engines that meet stringent emission standards and reduce vibrations for a remarkably smooth ride. Key features of the ships' energy-efficient design include:

- **EFFICIENT USE OF SPACE.** On a ship, every bit of added weight results in extra fuel consumption. This is why we are careful to add only what is needed to our ships, prioritizing optimal guest comfort and operational efficiency.
- **SHORE POWER.** Viking Longships utilize shore power where possible to reduce reliance on fuel while in port. This feature is already providing a reduction in CO<sub>2</sub> emissions of up to 30% on some itinerary sections.
- **BATTERY PACKS.** Our newest Viking Longships have battery packs installed on board, which are expected to reduce our emissions by an additional 5%.
- **LED LIGHTING.** The lighting instruments on board Viking Longships are more energy-efficient LEDs, utilizing low wattage and therefore lower heat output, lower power usage and a longer life.
- **SOLAR PANELS.** Located on the Sun Deck, these onboard solar panels help make Viking Longships the greenest vessels on the rivers of Europe.

Beyond the technical aspects of the ships' design, Viking Longships are also equipped with the following features to reduce environmental impact:

- **ADVANCED RECYCLING & WASTE MANAGEMENT.** In addition to trash and recycling separation facilities, Viking Longships are equipped with a “zero” discharge wastewater treatment system making them environmentally safe for any river they sail.
- **NOISE & LIGHT REDUCTION.** Our vessels feature state-of-the-art insulation to ensure the overwater noise from on board is kept to a minimum, keeping local life undisturbed. On board lighting has also been designed to ensure no light pollution is disturbing local fish and wildlife.
- **BIODIVERSITY-SUPPORTING DOCKING LOCATIONS.** With more than 60 Viking-owned docking locations, specifically designed for Viking Longships, we provide an infrastructure that has close to zero impact on biodiversity.

VIKING LONGSHIP ON THE RHINE

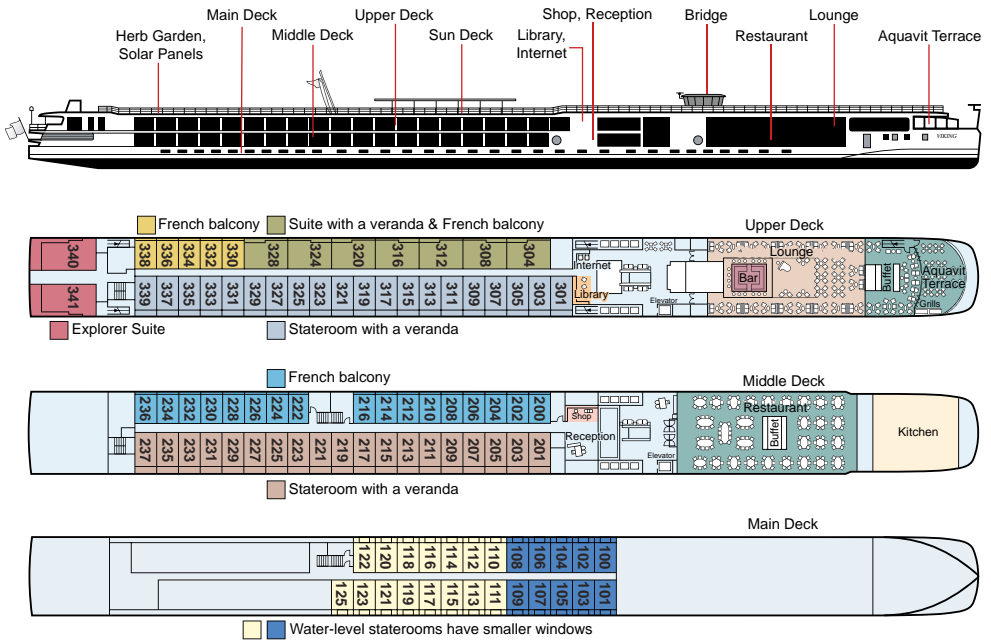

## VIKING LONGSHIPS

Viking Longships are the most award-winning class of river ships, having been recognized by *Condé Nast Traveler*, *Travel + Leisure*, *Cruise Critic* and more.

**VIKING LONGSHIPS: BEST NEW RIVER SHIP**, “Viking’s modern Longships offer an airy ambiance with plenty of big-ship amenities. Verandas are full-sized. Suites, mirroring hotel accommodations, each offer two rooms. The Aquavit Terrace, an indoor-outdoor casual eatery, is a dedicated alternative restaurant. And the ships are state-of-the-art when it comes to engineering, with hybrid engines, solar panels and even an organic herb garden.” – Cruise Critic Editors

**BOASTING THE SAME POPULAR DESIGN ELEMENTS** as our Viking Longships, the Seine, Douro and Elbe ships feature state-of-the-art engineering, deluxe accommodations and streamlined Scandinavian interiors. Like our Viking Longships, you can choose from a variety of stateroom classes, all with river views. Slightly smaller in size and with customized hulls and engines, these intimate ships were built specifically to navigate their respective rivers and dock in the heart of town. And in Paris, the Seine ships dock just steps from the Eiffel Tower. For interactive deck plans, photos and more, see our website, [Viking.com/Rivers](http://Viking.com/Rivers).

## VIKING MISSISSIPPI

*Innovative, light-filled space where comfort meets discovery*

**WE DESIGNED VIKING MISSISSIPPI** from the inside out with your comfort in mind. Starting with our signature Scandinavian style of clean lines, neutral tones and natural materials, even the smallest details take their inspiration from the exploratory spirit of the original Vikings. The ship's interior décor also pays tribute to American history and culture with subtle elements throughout.

**OPEN AND SERENE SPACES** greet you throughout. Public areas will be familiar to our river and ocean cruise guests but have been reimagined for Mississippi River voyages, from the comfortable and welcoming Living Room to the quiet corner of The Library. The sun-filled, two-story Explorers' Lounge has floor-to-ceiling windows that open to The Bow, a unique outdoor seating area at the front of the ship.

**INSPIRED BY RELAXED EVENINGS ON THE PORCH**, the Aquavit Terrace is based on Southern living and the great outdoors. Here, you can celebrate casual time with friends while taking in sweeping views of America's heartland. The River Café, a revolutionary indoor/outdoor casual dining venue, allows you to view passing landscapes while enjoying breakfast, lunch and dinner in a bright and airy space.
