

The background is a blurred, high-angle shot of a modern architectural space. It features a long, narrow hallway with a light-colored floor and walls. On the right side, a palm tree is visible, its fronds extending into the frame. The lighting is soft and diffused, creating a clean and minimalist aesthetic. A large black rectangular box is overlaid on the left side of the image, containing white text.

# Good Design for Good Moments

To provide whatever you are looking for!

# About Us

At Minimalix, we believe in the idea of minimalism that we don't need "more" things around us to be joyful and happy, we just need the "right" things that cater to our needs and also bring us joy.

With the revolutionary concept of minimalism, we have ventured into the market of minimalist co-living spaces that has led us to the idea of beautification and decluttering of any space. We are the only company in India which designs interiors using the concept of minimalism. We are not just interior designers but designers that believe in the idea that "less is more" which help you focus on your purpose in life by eliminating all the distractions.

We are a team of enthusiastic brains that guide our millennials with the ancient wisdom of minimalism. Founded in 2020, Minimalix began its modest journey from the urbans of Gurgaon. Today, we are a robust family of thirty talented and self-motivated individual entrepreneurs who have the potential materialize anything in minimalistic way.

We serve our clients and customers with best experience of minimalist community with a wide range of products and services that includes minimalist co-living spaces, minimalist interior design services. We specialize in Home decor, office decor, space planning, furniture, Design & Planning, Painting, Plumbing, Electrical, 2D&3D Design, Civil work and many more.

Being a minimalist is clean and green and we believe, it to be the need of the hour. Our earth can cater to the needs of all the humans who co-exist here but not to their wants. Now is the perfect moment to realize that and act upon it. Let us begin the movement of minimalism for a sustainable future.
