

OUR PARENT

EP Equipment is a well-known global manufacturer that has been a leader in China's material handling industry since 1993. While the company is very diversified the core focus areas include electric lift trucks, warehouse solutions and OEM parts. The company's headquarters is in Hangzhou, China and it owns over two million square feet of manufacturing space across facilities in Anji, China, Jiangjiang, China and Wisconsin, USA. In addition, the company has distribution facilities across China and in Illinois, South Carolina, Japan and Belgium and Thailand. EP owns many patents in both the USA and China and owns trademarks across the globe. Business units include EP, East Power, Manhand, EP OEM Parts and Big Joe. Globally, EP has experienced tremendous growth and now has over 1,600 employees in locations around the globe.

German material-handling supplier KION Group AG said yesterday, "it will acquire a minority ownership stake in Chinese manufacturer EP Equipment Co. Ltd. as part of Kion's strategy to expand its presence, in China and worldwide, in the light-duty or "entry level" warehouse equipment segment".
