## OUR TEAM

## PRODUCTION BASE

Located in China, with years' of manufacturing experience and reliable quality control system, EP OEM parts has expanded Made-in-China global Industry parts supply business since 1996. Utilize EP global support net work and major local suppliers to offer high specialized OEM components to automobile, medical system, automation etc Industries. As a competitive global supplier, EP believes the future is adding total source value, from design to manufacturer, from logistic to financial, to venture "made in China". Our team of professionals are ready to assist you with your product requirements.

## QUALITY CONTROL

With over a decade of effort, EP invested and built a OEM-parts venture net work, including 10 factories and 1500 employee. EP OEM parts ISO control system comes down to every related part of the network to insure global quality OEM parts.

## INTERNATIONAL AND LOCAL

Along with company's Industry truck business, EP OEM parts set up local logistic and warehouse centers for each major market to compete with local suppliers. On-line order tracking system offers easy tracking solution for global customers. Today, with three logistic centers in the US and two logistic centers in west Europe, EP China OEM parts net work and overseas sales & support team are taking the role to be best global supplier, with high quality local service.
