Solar System- Backup Battery- Roofing & Install Included

TRUE or FALSE?

***** You must take the high commission companies that only offer one Solar System. (FALSE)**

***** You must accept the offer from a company that does not show you several options. (FALSE)**

***** You have to accept lower quality instead of getting the best system with the best monthly savings. (FALSE)**

***** You have to talk with an online or chat-bot or an A.I. machine instead of the actual owners. (FALSE)**

***** You have to submit utility bills & personal financials to strangers not located in your area. (FALSE)**

***** You can talk with someone actually licensed & obligated to show you the best Program for you. (TRUE)**

Let's Talk About Solar For Your Property Anytime You Like

TRUE or FALSE?

***** You will talk with a Company who is also a licensed Real Estate & Loan BROKERAGE & who also helps homeowners as a Solar Broker with Solar Buying or Leasing. A Solar Company Broker who will explain how Solar increases the value of your Home and provides the guarantee to save you money every month starting on day one... for 25 years with a 25 year warranty to protect you. (TRUE)**

You will work with a Solar Broker who is also a Real Estate & Mortgage BANKER, that will show you several options and help you design the best system for your Property with several options... and who is obligated to be your Agent and work with you to your best interests. (TRUE)

YES...You Will Know Solar 3.0 Like We Do On Day One

We are local in the Desert Cities/SoCal and can help you anywhere in California... and beyond.

We can talk or zoom or meet in person. Our process is easy and no stress. Once we agree to show you what is available for your new Solar System with Backup Battery... We will review your property from the sky and review your electric bill, so we can see how much energy you are using throughout the year... so we can estimate what size Solar you need.

We will then discuss if you prefer to buy with financing with zero cash needed and also have the Tax Credits, that get you cash back to save you one third of the cost on day one... or, if you prefer to Lease as you may not need or benefit from the Tax Credits... we will show you how much you will still save on day one.

We will also explain Solar 2.0 from 2023 and Solar 3.0 in 2024. You may have heard all the talk about this. You will get the facts and we will explain how this really does not cost you more but actually can be a better way to have Solar and still save money from day one.
