

Happy Earth Day

I bless and care for the Earth as she blesses and cares for me.

What does
the Earth
want to
bless you
with now?

What energy will
help you lean into
and appreciate
the blessings,
beauty and
abundance all
around you?

What energy
will help you
offer blessings
and care
back to the
Earth?

Show some gratitude to Mother Earth! Reflect on the ways she blesses and cares for you?

What do you vow to change to help bless and care for the Earth as she blesses and cares for you?
