

Winter 2025-2026 Newsletter

Our first quarterly newsletter!
We have a busy few months ahead of us so let's get into it!

The final changes have been made for the most part. There will be some rearranging after the holidays, but for the most part we are all set up! I'm so excited to watch the children explore the areas and learn through their playing!!

It looks like we are slowly getting adjusted to the new schedule! We are working on more activities and what better time than Christmas to get more activities going!! I'm so excited to see what 2026 has in store for us!!!!

Please remember to check our calendar in the app and on our parent board for scheduled closures. All scheduled closures are also in your parent packet.

Over the next 3 months, we are going to be talking about all of the things that happen during winter. We will talk about the season, the weather, the holidays (there's lots of those!), the activities, and anything else we can learn about!!

We will be welcoming some new friends over the next few months as well!!
I cannot wait to have all of our new friends with us to grow and learn!!!

Happy Holidays!!!
Happy New Year!!!!
