The Advanced Patrol Rifle Course (APRC) by Hyde Syte Tactics was developed to set the standard for law enforcement patrol rifle training.
Designed specifically for officers utilizing the AR/M4 patrol platform, this course builds upon foundational rifle skills and advances them into realistic, street-applicable tactics. Participants will develop the confidence, competence, and decision-making ability necessary to prevail in high-stress encounters.
This course is ideal for patrol officers, tactical team members, and experienced rifle operators seeking to sharpen their capabilities and maintain operational readiness.
Training topics include:

- Emergency and tactical reloads
- Movement and shooting techniques
- Shooting from cover and unconventional positions
- Target identification and discrimination
- Stress-based shooting drills
- Threat engagement under realistic conditions
- Practical patrol and SWAT rifle applications

Whether serving as a patrol officer or SWAT rifle operator, APRC is designed to enhance survivability, improve performance under pressure, and strengthen critical rifle-handling skills.
Instructor Trevor DeBoer

- 26-Year Law Enforcement / SWAT Sergeant
- 30-Year Special Forces Veteran
- Firearms Instructor and Tactical Operator
- State LESB Firearms Instructor

Train with proven methods, real-world experience, and instruction focused on preparing officers for the realities of the street.

Optional addition (Law Enforcement Officers Only) : HST has partnered with Bravo Company Manufacturing to include Law Enforcement officers who register for this course in their AR Program. This program will allow officers to purchase a BCM RECCE 14 Rifle for $300.00 (not included with the cost of the course).
