

## A Rock vs The World

To attempt to try and strike this woman is to strike a rock  
You'll over exert and break  
Before you even make one damn ding  
So watch yourself man because I've been watching you from the beginning  
I worked hard to gain my freedom  
It is not free to you  
If I give you sample  
And you'll have to make do with that  
You'll never have all of me  
Unless you work as hard as I did

I'm a very understanding and patient woman  
I know the pains of others  
Freedom from pain of love that wasn't natural  
The man I used to love made me hate men  
The boys that took advantage and did things they knew nothing about  
Everything we do has consequences  
I learned many times you cannot control anyone  
There will be resistance one way or another  
I have no fear  
I ripped the skin attached to my enemy  
Like a saw movie, I had two choices  
Whichever I chose , would end in blood  
Mine or his  
But I had no knowledge of the consequences of what would happen if I spilled his blood  
So many times did I want to  
And I could  
As I should of  
By native law, he broke so many rules  
He hurt his own kind  
His family  
He didn't deserve

So I decided to cut my own arm off figuratively speaking  
I knew I could deal with the blood loss  
With my basic and deep knowledge of the world  
I knew I could manage  
It hasn't been easy  
But it's getting easier to manage myself  
Living in a place I don't want to be in  
In a chapter of my life that I wish I could skip  
But I have a test coming up

So I cannot just skim and scan  
I have to read every word every passage  
It will take years to finish  
But I can take it one page at a time or one chapter every month  
Whatever it takes to get the end

I am at more peace now  
So I can share pieces of what I have discovered  
Through pain I gained a knowing of a deeper meaning  
I see men differently  
The fear once instilled me at a younger age  
Is gone  
The hate created from fear has dispersed  
I find it is quite healing when I support my fellow man  
And I always have love and support for women  
Especially those part of the single mamas club

We must keep ourselves protected but we do not have to hide ourselves  
I have been showing myself from the beginning  
I share my story not afraid of the repercussions  
I knew then and now there is nothing wrong with being authentic and ethnic  
I am native  
I am made from Mexico  
I am mixed blood  
I am chicana  
I'll say in Spanish too even though that language was forced upon us  
Yo soy nativa  
Yo soy de México  
Yo soy mestiza  
Yo soy chicana  
This is my identity so I can say whatever f\*\*\* I want to say  
Cause truthfully I don't give a sh\*\* what anyone thinks of me , never have never will  
I always had a sense of pride and I know where that pride comes from  
I am not afraid to get my feelings hurt  
I am not afraid to get rejected  
I welcome the feedback  
Please tell me something  
I love to learn  
Whether I find out something about you or me  
We'll see  
Or I will  
Be gone at the first sign of disturbing my peace  
I have no patience for mediocre bullshit  
Trauma drama that has nothing to do with me

To f\*\*\* with me means you're f\*\*\*ing with me family  
And I can't have that  
Nothing comes before them  
Yes I'm fierce like a mama bear  
I have to be  
To attempt to strike me  
Is to seal your fate with the deathwish you didn't make  
I'm hard as rock when I need to be  
Feel the unexpected wrath of a mama bear  
With claws holding hundred of pounds of force  
A rock turned into a boulder  
Boulder beats you, rock , paper and scissors
