Kardia takes safety of kids and staff safety extremely seriously. While there has been no known direct contact with the virus at Kardia, we are closely monitoring the Centers for Disease Control Prevention and World Health Organization statements regarding the novel coronavirus cases and following guidelines from these agencies. At this point, we are not canceling any of our camps as the risk of spread continues to remain low.

Kardia maintains the highest level of cleanliness and we are actively working to sanitize all areas of camp continuously.

For now, we advise kids families to reduce their risk of getting sick by taking preventative measures typical of other seasonal colds or flu viruses, including:

- Stay home if you or a family member is sick
- Wash hands regularly with soap and hot water for at least 20 seconds
- Cover your cough or sneeze using proper technique
- Avoid touching your face
